RESEARCH REVIEW

The Implementation of the
Minnesota Department of Transportation
Research Projects
TABLE OF CONTENTS

RESEARCH REVIEW

The Implementation Status of the Minnesota Department of Transportation Research Projects

Table of Contents

- Volume I - Investigations**
- Volume II - MnLRRB Studies**
- Volume III - Special Studies**

TABLE OF CONTENTS

	<u>Volume-Page</u>
<u>BRIDGES</u>	
Investigation No. 177 - "Development of Procedures for Structural Foundations"	II 1
Investigation No. 206 - "Evaluation of Non-destructive Pavement Testing"	II 1
Special Study No. 273 - "Bridge Floor Surface Restoration"	III 1
Special Study No. 275 - "Insulation of Bridge Decks"	III 2
Special Study No. 327 - "Bridge Deck Anti-frost Treatment"	III 2
Special Study No. 367 - "Extended Evaluation of Selected Experimental Bridge Deck Protective Systems"	III 2
Special Study No. 378 - "Procedures and Materials to Reduce Corrosion in Bridge Decks"	III 3
Special Study No. 382 - "Bridge Deck Repair and Maintenance by Epoxy Injection"	III 3
Investigation No. 639 - "Bridge Deck Deterioration and Restoration"	I 1
Investigation No. 640 - "Bridge Deck Anti-Frost Treatments"	I 1
Investigation No. 648 - Design of Bridges in Areas of Unstable Soils"	I 2
<u>ICE CONTROL</u>	
Investigation No. 182 - "Use of Nuclear Reactor Waste Materials for Snow and Ice Removal Work done by the U of M"	II 3
Special Study No. 282 - "Field Evaluation of Chlorides for Snow and Ice Removal"	III 4
Special Study No. 294 - "Field Evaluation of Anti-Corrosive Salt"	III 4
Special Study No. 327 - "Bridge Deck Anti-frost Treatment"	III 2
Special Study No. 353 - "Use of Salt Brine for Snow and Ice Removal"	III 5
Special Study No. 377 - "Field Trial of Urea for Ice and Snow Control"	III 5
Investigation No. 604 - "Ice Removal on Highways and Bulk Storage of Chloride Salts"	I 3
Investigation No. 620 - "Effectiveness of Anti-Corrosion Additives in Deicing Salts"	I 3

TABLE OF CONTENTS (continued)

	<u>Volume-Page</u>
 <u>LITERATURE AND RESEARCH REVIEWS</u>	
Investigation No. 618 - "Reviewing and Abstracting Technical Reports"	I 4
Investigation No. 645 - "Implementation of Research Findings"	I 4
 <u>LOAD CAPACITY</u>	
Investigation No. 603 - "Load Carrying Capacity of Flexible Pavements"	I 5
Investigation No. 630 - "Field Study on the Effect of Overlays on Flexible Pavement Deflections"	I 5
 <u>MATERIALS - (ASPHALT-CONCRETE)</u>	
Special Study No. 266 - "Asphalt Emulsion Stabilized Base Construction"	III 6
Special Study No. 306 - "Evaluation of Stripping Characteristics of Bituminous Aggregates"	III 6
Special Study No. 312 - "Evaluation of Consistency Characteristics of Asphalt Cements used by Minnesota Highway Department"	III 7
Special Study No. 369 - "Asphalt Emulsions for Highway Construction"	III 7
Special Study No. 379 - "Chemical Analysis of Asphalt Cement"	III 8
Special Study No. 381 - "Evaluation of Nuclear Asphalt Content Gauge"	III 8
 <u>MATERIALS - (AGGREGATES)</u>	
Investigation No. 178 - "Beneficiating Low Quality Base Aggregates by Use of Additives at S.P. 0707-04 T.H. 30 Jct. 22 to E County Line"	II 21
Investigation No. 179 - "Use of Crushed and Pit Run Aggregates in Secondary Pavement Construction"	II 18
Investigation No. 191 - "Modern Concepts for Density Control of Bituminous Wearing Courses, Base Construction, and Embankment Soils"	II 20
Investigation No. 192 - "Determination of Gradation Bands for Bituminous Mixtures"	II 22
Investigation No. 198 - "Determination of Granular Equivalencies for Aggregate and Asphalt-Treated Base Courses Using a Computer Simulated Pavement"	II 5
Special Study No. 283 - "Study of Aggregate Tests"	III 9
Special Study No. 284 - "Study of Degradation of Aggregate"	III 9

TABLE OF CONTENTS (continued)

	<u>Volume-Page</u>	
<u>MATERIALS - (AGGREGATES) Continued</u>		
Special Study No. 306 - "Evaluation of Stripping Characteristics of Bituminous Aggregates"	III	6
Special Study No. 310 - "Lightweight Aggregates in Concrete Mixes"	III	10
Special Study No. 323 - "Evaluation of Lime Stone Bases"	III	10
Special Study No. 335 - "Lime-fly ash-aggregate Base Courses"	III	11
Special Study No. 338 - "Aggregate Base Density Special Study"	III	11
Special Study No. 340 - "Evaluation of Modified Class 5 Aggregate"	III	12
Special Study No. 343 - "Permeability Tests on Granular Materials Used for Various Purposes"	III	12
<u>MATERIALS - (BITUMINOUS RELATED)</u>		
Investigation No. 192 - "Determination of Gradation Bands for Bituminous Mixtures"	II	22
Investigation No. 198 - "Determination of Granular Equivalencies for Aggregate and Asphalt-Treated Base Courses Using a Computer Simulated Pavement"	II	5
Investigation No. 205 - "Recycling of Bituminous Pavements"	II	17
Special Study No. 297 - "Evaluation of Extraction Test Procedures for Bituminous Mixtures"	III	13
Special Study No. 303 - "Study of Random Cracking in Bituminous Surface"	III	13
Special Study No. 306 - "Evaluation of Stripping Characteristics of Bituminous Aggregates"	III	6
Special Study No. 307 - "Development of Field Procedures of Determining Asphalt Content"	III	14
Special Study No. 315 - "Sawing of Joints to Control Cracking in Flexible Pavements"	III	14
Special Study No. 319 - "Laboratory Study of Full-Depth Asphalt Pavement Structures Evaluation"	III	15
Special Study No. 321 - "Evaluation of Cold-Water Abrasion Tests"	III	15
Special Study No. 326 - "Evaluation of Bituminous Surfaces Using the Turbulent Mass Process"	III	15
Special Study No. 336 - "Evaluation of Trial Mix Design Test Procedures"	III	16
Special Study No. 339 - "Evaluation of Bituminous Mixtures when Storage Bins are Utilized"	III	16

TABLE OF CONTENTS (continued)

	<u>Volume-Page</u>
<u>MATERIALS - (BITUMINOUS RELATED) Continued</u>	
Special Study No. 345 - "Recycling of Bituminous Shoulders"	III 16
Special Study No. 346 - "Evaluation of Sulfur Asphalt Mixtures"	III 17
Special Study No. 350 - "Recycling of Bituminous Mainline and Shoulders"	III 17
Special Study No. 363 - "Full-Depth Asphalt in Railway Roadbed Construction"	III 17
Special Study No. 381 - "Evaluation of Nuclear Asphalt Content Gauge"	III 8
<u>MATERIALS - (CONCRETE-RELATED)</u>	
Special Study No. 265 - "The Effect of Pavement Breaker Rolling on the Crack Reflectance of Bituminous Overlays"	III 18
Special Study No. 288 - "Effect of Mixing Time on Concrete Properties"	III 18
Special Study No. 293 - "Some Skid Resistance Tests on Pavement Treated with Linseed Oil"	III 19
Special Study No. 296 - "Laboratory Study to Evaluate Methods for Improving the Appearance of Concrete Surfaces"	III 19
Special Study No. 298 - "Air Tests on Zero Slump Concrete"	III 20
Special Study No. 299 - "Evaluation of Shrinkage Compensating Cement"	III 20
Special Study No. 305 - "Detection of Reinforcing Steel in Concrete"	III 21
Special Study No. 308 - "The Effect of Polystyrene Molds on Concrete Cylinder Strength"	III 22
Special Study No. 310 - "Light-Weight Aggregates in Concrete Mixes"	III 10
Special Study No. 313 - "Effects of Admixtures on Shrinkage of Concrete"	III 22
Special Study No. 318 - "Serviceability of Thin Concrete Pavement"	III 23
Special Study No. 330 - "General Study of D-Cracking"	III 23
Special Study No. 332 - "Fibrous Concrete"	III 23
Special Study No. 342 - "Evaluation of Concrete Pavement with Lane Widening, Tied Concrete Shoulders and Thickened Pavement"	III 24
Special Study No. 351 - "Recycling PCC Pavement"	III 24
Special Study No. 374 - "Field Trials of Polymer Concrete Patching Materials"	III 25
Special Study No. 380 - "Field Evaluation of Vacuum Impregnation"	III 25

TABLE OF CONTENTS (continued)

	<u>Volume-Page</u>
<u>MATERIALS - GENERAL</u>	
Investigation No. 196 - "Implementation of Quality Assurance"	II 18
<u>MATERIALS - (PORTLAND CEMENT and PORTLAND CEMENT ADMIXTURES)</u>	
Investigation No. 175 - "Effects of Retarders on Concrete Strength Durability. Test on Plastiments"	II 22
Investigation No. 193 - "Performance of Concrete Pavements on Treated Bases"	II 10
Investigation No. 207 - "Cathodic Protection of Continuously Reinforced Concrete Pavement"	II 11
Special Study No. 272 - "Tests on Polyvinylchloride Waterstops"	III 26
Special Study No. 299 - "Evaluation of Shrinkage Compensating Cement"	III 20
Special Study No. 313 - "Effect of Admixtures on Shrinkage of Concrete"	III 22
Special Study No. 320 - "Evaluation of Regulated Set Cement"	III 27
Special Study No. 360 - "Cooperative Tests on Cement"	III 27
<u>MATERIALS - (SOIL)</u>	
Investigation No. 179 - "Use of Crushed and Pit Run Aggregates in Secondary Pavement Construction"	II 18
Investigation No. 188 - "Presplit Blasting and Water Control"	II 19
Investigation No. 190 - "Cooperative Soil Testing Program (for Soil Conservation Service)"	II 19
Investigation No. 191 - "Modern Concepts for Density Control of Bituminous Wearing Courses, Base Construction, and Embankment Soils"	II 20
Investigation No. 199 - "Design and Evaluation of Roadway Widening Sections Through Swamps"	II 6
Special Study No. 270 - "A Review of some recent Research in Soils and Soil Stabilization"	III 28
Special Study No. 278 - "Frost Consideration in the Design of Highway Pavements in the West Central United States"	III 28
Special Study No. 285 - "Frost Heave Correction Using Sytrofoam"	III 29
Special Study No. 304 - "A Limited Study of "Terbec C-7" Treated Soil"	III 29
Special Study No. 317 - "Hydrated Lime as a Grading Construction Aid"	III 30

TABLE OF CONTENTS (continued)

	<u>Volume-Page</u>
<u>MATERIALS - (SOIL) Continued</u>	
Special Study No. 322 - "Evaluation of Back Pressure Application in Triaxial Compression Testing"	III 30
Special Study No. 331 - "Study of Reinforced Earth"	III 30
Special Study No. 334 - "Electromosis"	III 31
Special Study No. 356 - "Evaluation of R-Value Tests"	III 31
<u>MATERIALS - (STEEL, REBARS, ETC)</u>	
Special Study No. 291 - "Test on Bolts and Fasteners"	III 32
Special Study No. 292 - "Study of Steel Rail Versus Billett Steel for Sign Posts"	III 33
Special Study No. 305 - "Detection of Reinforcing Steel in Concrete"	III 21
Special Study No. 341 - "Use of Strain Gauges"	III 33
<u>PAVEMENTS - (GENERAL)</u>	
Investigation No. 189 - "Development of Rating System to Determine the Need for Pavement Resurfacing"	II 4
Investigation No. 194 - "Design and Evaluation of Abrasion Resistant Highway Wearing Courses"	II 4
Investigation No. 197 - "Factors Influencing Skid Resistance"	II 5
Investigation No. 198 - "Determination of Granular Equivalencies for Aggregate and Asphalt-Treated Base Courses Using a Computer Simulated Pavement"	II 5
Investigation No. 199 - "Design and Evaluation of Roadway Widening Section Through Swamps"	II 6
Investigation No. 201 - "Evaluation of the Road Rater Model-2000"	II 6
Investigation No. 202 - "Methods and Materials for Reducing Crack Reflectance"	II 7
Investigation No. 204 - "Use of Sulfur in Construction"	II 8
Investigation No. 206 - "Evaluation of Non-destructive Pavement Testing"	II 1
Investigation No. 208 - "Evaluation of Bituminous Overlay on Cracked PCC Pavement"	II 8
Special Study No. 267 - "AASHTO Road Test Evaluation"	III 34

TABLE OF CONTENTS (continued)

<u>PAVEMENTS - (GENERAL) Continued</u>	<u>Volume-Page</u>	
Special Study No. 280 - "Study of the Present Serviceability Index Method "PSI" of Rating Pavements in Service"	III	34
Special Study No. 314 - "Development of Test for Determining Pavement Roughness"	III	35
Special Study No. 325 - "Feasibility of Constructing a Portland Cement Concrete Pavement on Bituminous Base"	III	35
Special Study No. 333 - "Vehicle Shoulder Encroachment and Lateral Placement Study"	III	36
Special Study No. 347 - "Effect of Heavy Axle Loads"	III	36
Special Study No. 348 - "Design and Evaluation of Airport Runways and Aprons"	III	37
Special Study No. 357 - "Evaluation of Sulphlex Binders"	III	37
Special Study No. 373 - "Pavement Management"	III	37
Special Study No. 375 - "Evaluation of Variable Thickness of Bituminous Overlays on Cracked PCC Pavements"	III	38
Investigation No. 612 - "Experimental Base Stabilization Project"	I	9
Investigation No. 629 - "Evaluation of Bituminous Surfaces with Finer Aggregates"	I	9
Investigation No. 641 - "Crack Reflectance of Bituminous Overlaid PCC Pavement"	I	10
Investigation No. 642 - "Evaluation of Bituminous Surfaces using the Turbulent Mass Process"	I	11
Investigation No. 646 - "Evaluation of Recycling Bituminous Pavements"	I	11
Investigation No. 650 - "Pilot Program for Evaluation of the Structural Adequacy of Flexible Pavements for Counties and Municipalities"	I	12
Investigation No. 654 - "Use of Sulphur in Construction and Maintenance of Pavements"	I	12
Investigation No. 655 - "A Synthesis of Surfacing Design and Construction Technology for Low Volume Roads"	I	13
Investigation No. 656 - "Use of Oversized Aggregates in Plant Mixed Bituminous Pavements"	I	13

TABLE OF CONTENTS (continued)

	<u>Volume-Page</u>
<u>PAVEMENTS - (FLEXIBLE)</u>	
Investigation No. 174 - "Flexible Pavement Design" a) Study of Current Design Practices, with Recommendations for Improving MHD Methods. b) Evaluation of 1954 Design Standards by Plate Bearing Tests.	II 14
Investigation No. 176 - "Evaluation of the Stabilometer for Flexible Pavement Design in Minnesota"	II 14
Investigation No. 183 - "Application of AASHO Road Test Results to Design of Flexible Pavements in Minnesota"	II 15
Investigation No. 185 - "Experimental Crack Sealing on Bituminous Pavement"	II 15
Investigation No. 195 - "Full Depth Asphalt Pavement Structures Evaluation"	II 16
Investigation No. 198 - "Determination of Granular Equivalencies for Aggregate and Asphalt-Treated Base Courses Using a Computer Simulated Pavement"	II 5
Investigation No. 205 - "Recycling of Bituminous Pavements"	II 17
Investigation No. 208 - "Evaluation of Bituminous Overlay on Cracked PCC Pavement"	II 8
Investigation No. 210 - "Asphalt Pavement Overlay Thickness Design Procedure"	II 17
Special Study No. 266 - "Asphalt Emulsion Stabilized Base Construction"	III 6
Special Study No. 267 - "AASHO Road Test"	III 34
Special Study No. 269 - "Asphalt Cement Stabilized Base Construction Near Soderville"	III 39
Special Study No. 303 - "Study of Random Cracking in Bituminous Surfaces"	III 13
Special Study No. 309 - "Field Study of the Effects of Overlays on Flexible Pavements Deflections"	III 40
Special Study No. 315 - "Sawing of Joints to Control Cracking in Flexible Pavements"	III 14
Special Study No. 316 - "Feasibility on the use of Elastic Theory to Simulate a Flexible Pavement in Minnesota"	III 40
Special Study No. 319 - "Laboratory Study of Full-Depth Asphalt Pavement Structures Evaluation"	III 15
Special Study No. 323 - "Evaluation of Limestone Bases"	III 11

TABLE OF CONTENTS (continued)

<u>PAVEMENTS - (FLEXIBLE) Continued</u>	<u>Volume-Page</u>
Special Study No. 325 - "Feasibility of Constructing a Portland Cement Concrete Pavement on Bituminous Base"	III 35
Special Study No. 345 - "Recycling of Bituminous Shoulders"	III 16
Special Study No. 350 - "Recycling of Bituminous Mainline and Shoulders"	III 17
Special Study No. 368 - "Bituminous Pavement Rehabilitation Procedures"	III 42
Special Study No. 372 - "Evaluation of Fabric Strip Repair to Reduce Longitudinal Crack Reflectance"	III 42
Special Study No. 375 - "Evaluation of Variable Thickness of Bituminous Overlays on Cracked PCC Pavements"	III 38
Special Study No. 376 - "Design of Bituminous Structures"	III 43
<u>PAVEMENT MAINTENANCE</u>	
Investigation No. 185 - "Experimental Crack Sealing on Bituminous Pavement"	II 15
Investigation No. 189 - "Development of Rating System to Determine the Need for Pavement Resurfacing"	II 4
Investigation No. 201 - "Evaluation of the Road Rater Model-2000"	II 6
Investigation No. 202 - "Methods and Materials for Reducing Crack Reflectance"	II 7
Investigation No. 206 - "Evaluation of Non-destructive Pavement Testing"	II 1
Investigation No. 208 - "Evaluation of Bituminous Overlay on Cracked PCC Pavement"	II 8
<u>PAVEMENTS - (PORTLAND CONCRETE CEMENT)</u>	
Investigation No. 184 - "Continuously Reinforced Concrete Pavement"	II 9
Investigation No. 187 - "Experimental Prestressed Concrete Pavement"	II 9
Investigation No. 193 - "Performance of Concrete Pavements on Treated Bases"	II 10
Investigation No. 200 - "Developing Repair Methods for Continuously Reinforced Concrete Pavements"	II 10
Investigation No. 203 - "Recycling Portland Cement Concrete"	II 11
Investigation No. 207 - "Cathodic Protection of Continuously Reinforced Concrete Pavement"	II 11

TABLE OF CONTENTS (continued)

<u>PAVEMENTS - (PORTLAND CONCRETE CEMENT) Continued</u>	<u>Volume-Page</u>
Investigation No. 209 - "Effect of Concrete Shoulders, Lane Widening, and Frozen Subgrade on Concrete Pavement Performance"	II 12
Special Study No. 265 - "The Effect of Pavement Breaker Rolling on the Crack Reflectance in Bituminous Overlays"	III 18
Special Study No. 267 - "AASHO Road Test"	III 34
Special Study No. 293 - "Some Skid Resistance Tests on Pavement Treated with Linseed Oil"	III 19
Special Study No. 318 - "Serviceability of Thin Concrete Pavements"	III 23
Special Study No. 325 - "Feasibility of Constructing a Portland Cement Concrete Pavement on Bituminous Base"	III 35
Special Study No. 330 - "General Study of D-Cracking"	III 23
Special Study No. 342 - "Evaluation of Concrete Pavement with Lane Widening, Tied Concrete Shoulders and Thickened Pavement"	III 24
Special Study No. 351 - "Recycling PCC Pavements"	III 24
Special Study No. 355 - "Use of Lug Anchors to Retard Pavement Movement"	III 45
Special Study No. 375 - "Evaluation of Variable Thickness of Bituminous Overlays on Cracked PCC Pavements"	III 38
Special Study No. 380 - "Field Evaluation of Vacuum Impregnation"	III 25
<u>QUALITY CONTROL AND LABORATORY TESTS</u>	
Investigation No. 613 - "Field Trial of a Speedy Moisture Meter"	I 14
Investigation No. 622 - "Evaluation of Nuclear Moisture and Density Gauges"	I 14
Investigation No. 625 - "Evaluation of Automatic Conveyor Weighing Systems"	I 15
<u>SAFETY STUDIES</u>	
Special Study No. 271 - "Strength Tests on Sign Posts"	III 46
Special Study No. 279 - "Special Rumble Seal Coat Strips for Traffic Warning"	III 46
Special Study No. 301 - "Evaluation of Traffic Cones"	III 47
Special Study No. 358 - "Evaluation of Skip Stripe Variations"	III 47

TABLE OF CONTENTS (continued)

	<u>Volume-Page</u>
<u>SAFETY STUDIES Continued</u>	
Special Study No. 359 - "Safety Aspects and Durability of Powder Coated Highway Appurtenances"	III 47
Special Study No. 361 - "Snow Plowable Airport Pavement Markers"	III 48
Special Study No. 362 - "Raised Pavement Markers for Highways and Streets"	III 48
Special Study No. 364 - "An Evaluation of the Effectiveness of Swareflex Wildlife Warning Deflectors" in Reducing Deer-Vehicle Collisions"	III 49
 <u>SPECIFICATIONS AND STANDARDS</u>	
Investigation No. 637 - "Development of a Uniform Set of Standard Specifications for Underground Utilities"	I 16
Investigation No. 651 - "Width Standards for State Aid Streets and Highways"	I 16
 <u>STABILIZATION OF SOILS AND BASES</u>	
Special Study No. 266 - "Asphalt Emulsion Stabilized Base Construction"	III 6
Special Study No. 269 - "Asphalt Cement Stabilized Base Construction Near Soderville"	III 39
Special Study No. 270 - "A Review of some recent Research in Soils and Soil Stabilization"	III 28
Special Study No. 304 - "A Limited Study of "Terbec C-7" Treated Soil"	III 29
Special Study No. 317 - "Hydrated Lime as a Grading Construction Aid"	III 30
Special Study No. 335 - "Lime-fly ash-aggregate Base Courses"	III 11
 <u>SUBGRADE AND BASE MATERIALS</u>	
Investigation No. 601 - "Laboratory Evalution of Soil Lime Mixtures"	I 17
Investigation No. 607 - "Nobles County Base Stabilization Project"	I 17
Investigation No. 608 - "Bituminous Stabilization"	I 18
Investigation No. 611 - "Experimental Lime Stabilization Project"	I 18
Investigation No. 617 - "Laboratory Study of Bituminous Stabilization of Silty Soils"	I 19
Investigation No. 621 - "Experimental Field Project on Bituminous Stabilization of Silty Soils"	I 19

TABLE OF CONTENTS (continued)

	<u>Volume-Page</u>
<u>SUBGRADE AND BASE MATERIALS Continued</u>	
Investigation No. 624 - "Degradation of Crushed Rock and Gravel Base Materials"	I 20
<u>SURFACE TREATMENT AND CRACK SEAL OR REFLECTANCE</u>	
Special Study No. 274 - "Experimental Seal Coat Project on T.H. 152 from Monticello to St. Cloud"	III 51
Special Study No. 279 - "Special Rumble Seal Coat Strips for Traffic Warning"	III 46
Special Study No. 329 - "Need for Sealing Cracks in Bituminous Pavement"	III 51
Special Study No. 372 - "Evaluation of Fabric Strip Repair to Reduce Longitudinal Crack Reflectance"	III 42
Investigation No. 626 - "Criteria for Seal Coating Bituminous Surfaces"	I 21
Investigation No. 643 - "Need for Sealing Cracks in Bituminous Pavements"	I 21
<u>TRAFFIC CONTROL</u>	
Investigation No. 186 - "Experimental Thermoplastic Pavement Marking Project"	II 25
<u>TRAFFIC PAINT, MARKERS, AND PAINT SURFACE COATINGS</u>	
Special Study No. 276 - "Pavement Markings"	III 52
Special Study No. 289 - "Evaluation of Protective Coating for Plate Beam Guard Rail"	III 53
Special Study No. 349 - "Pavement Markings Removal"	III 53
Special Study No. 358 - "Evaluation of Skip Stripe Variations"	III 47
Special Study No. 359 - "Safety Aspects and Durability of Powder Coated Highway Appurtenances"	III 47
Special Study No. 361 - "Snow Plowable Airport Pavement Markers"	III 48
Special Study No. 362 - "Raised Pavement Markers for Highways and Streets"	III 48
Special Study No. 365 - "Preformed Tape Pavement Marking Materials"	III 54
Special Study No. 370 - "Use of Polyurethane Coatings on Maintenance Equipment"	III 55
Special Study No. 371 - "Development of Pavement Marking Materials Performance Specifications"	III 55

TABLE OF CONTENTS (continued)

List of Investigations prior No. 174	II 27
List of all Special Studies prior to No. 265	III 63
 References	III 86

NUMERICAL LIST OF SPECIAL STUDIES
FOR RESEARCH REVIEW VOLUMES I, II AND III

	<u>Volume-Page</u>
Investigation No. 174 - "Flexible Pavement Design" a) Study of Current Design Practices, with Recommendations for Improving MHD Methods. b) Evaluation of 1954 Design Standards by Plate Bearing Tests.	II 14
Investigation No. 175 - "Effects of Retarders on Concrete Strength Durability. Test on Plastiments"	II 22
Investigation No. 176 - "Evaluation of the Stabilometer for Flexible Pavement Design in Minnesota"	II 14
Investigation No. 177 - "Development of Procedures for Structural Foundations"	II 1
Investigation No. 178 - "Beneficiating Low Quality Base Aggregates by Use of Additives at S.P. 0707-04 T.H. 30 Jct. 22 to E County Line"	II 21
Investigation No. 179 - "Use of Crushed and Pit Run Aggregates in Secondary Pavement Construction"	II 18
Investigation No. 180 - "Study of Growth Retardants MH-30"	II 26
Investigation No. 181 - "Study of Mulching and Erosion Control Products"	II 26
Investigation No. 182 - "Use of Nuclear Reactor Waste Materials for Snow and Ice Removal Work done by the U of M"	II 3
