# Municipal State Aid Street Needs Report

Annapolis Street Reconstruction: St. Paul / West St. Paul

#### **PREFACE**

Fifty percent of the total apportionment will be distributed on prorated share of each city's population.

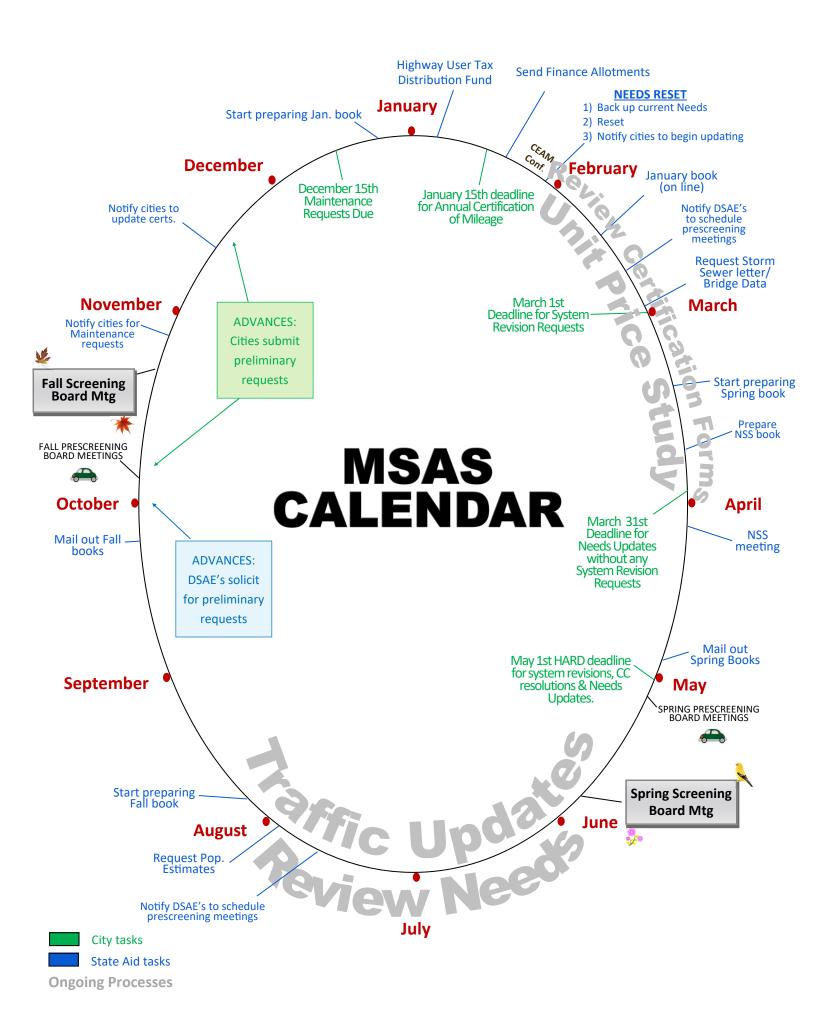

Fifty percent of the total apportionment will be based on a prorated share of each city's Money Needs (also called Construction Needs)

The **2023 Municipal State Aid Street Needs Report** is presented to the Municipal Screening Board for use in making their annual money needs recommendation to the Commissioner of Transportation.

This submittal is required by MN Statute 162.13 and is to be made to the Commissioner on or before November 1st of each year.

The Construction Needs data contained in this book were compiled after Needs updates were submitted for each municipality. Construction Needs are calculated by applying the unit prices (as determined by the Municipal Screening Board at their spring meeting in May 2023) to the quantities in the appropriate urban ADT group. These ADT groups and explanations for all Needs Calculations are in the resolutions of the Municipal Screening Board.

Population data, from the State Demographer and Met Council, will be combined with the Commissioner's final construction Needs, and the results will be used to determine the total allocations which will be reported in the "2024 Municipal State Aid Apportionment Data" book to be published in January.

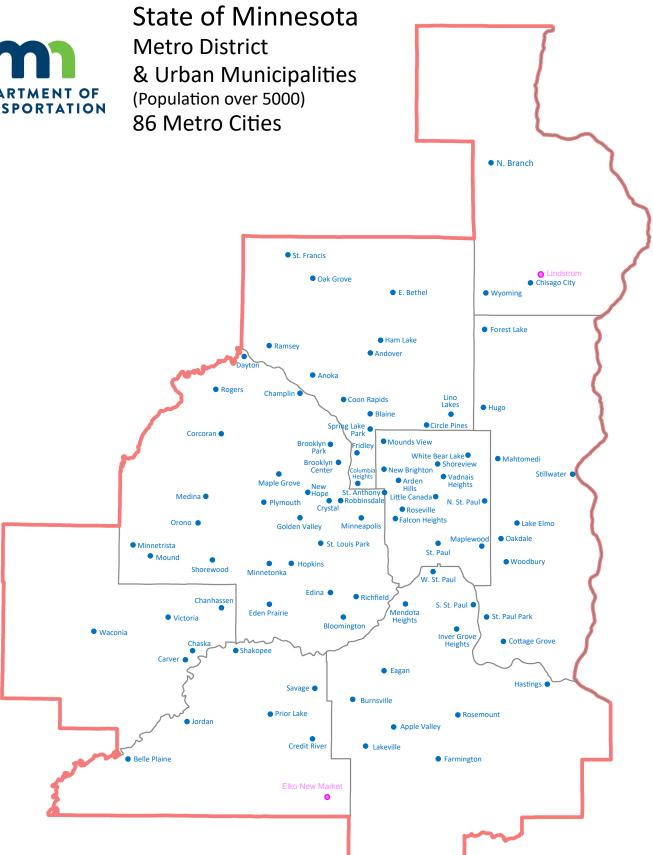

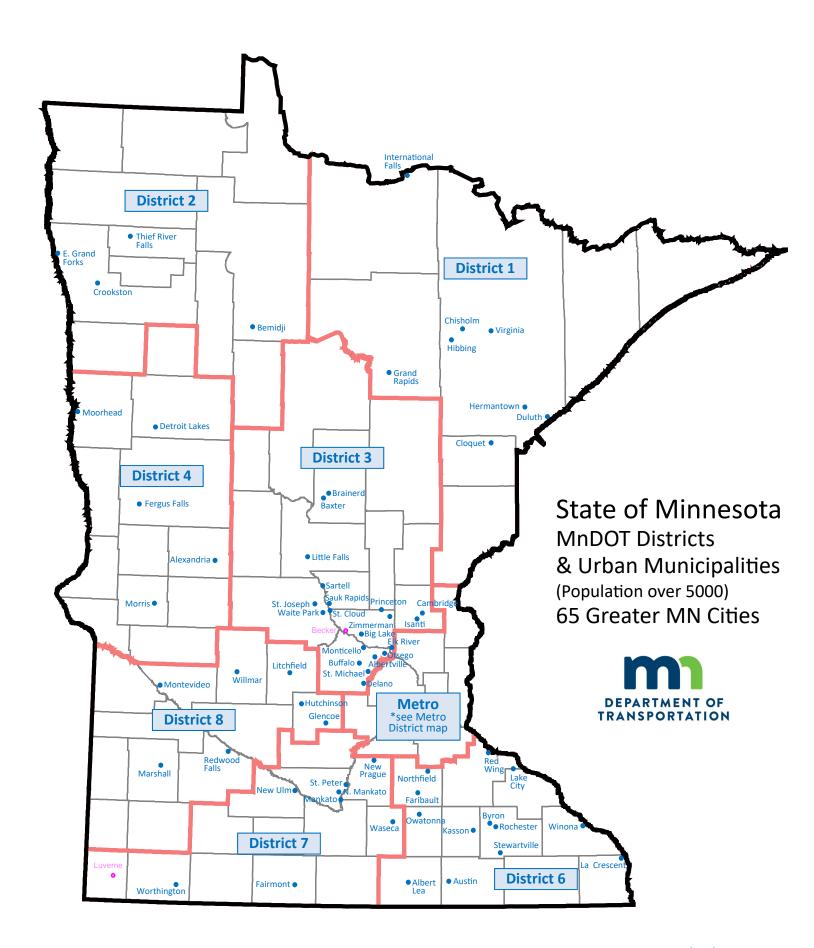

## **TABLE OF CONTENTS**

### INTRODUCTORY INFORMATION

# MUNICIPAL SCREENING BOARD MEETING May 23 & 24, 2023 CRAGUNS RESORT BRAINARD, MN AND MS TEAMS

#### **MINUTES**

#### **TUESDAY, MAY 23, 2023**

- **I.** Call to Order by Chair Desrude at 1:00 pm on Tuesday, May 23, 2023.
  - a. Desrude welcomed the group and introduced herself as Chair of the Municipal Screening Board (MSB). She communicated that there was a change to the agenda moving the legislative update to the first item. She then went on to introduce:

Kristine Elwood	State Aid Engineer
Bill Lanoux	Manager, Municipal State Aid Needs
Mark Duchene, Faribault	Vice Chair: Municipal screening board
Justin Femrite, Elk River	Past Chair of the MSB
Michael Thompson, Plymouth	Past Chair of the MSB
Jay Owens, Red Wing	Chair: Needs study subcommittee (NSS)
John Gorder, Eagan	Chair: Unencumbered construction funds
	subcommittee (UCFS) (online)

b. Desrude introduced Deb Heiser, St. Louis Park – Secretary: MSB. Heiser then conducted roll call of the screening board members in attendance:

District 1	Jason Fisher, International Falls
District 2	Steve Emery, East Grand Forks - (online)
District 3	Layne Otteson, Big Lake
District 4	Tom Trowbridge, Moorhead
Metro West	Will Manchester, Minnetonka
District 6	Brandon Theobald, Kasson
District 7	Joe Stadheim, New Ulm - (online)
District 8	Mike Amborn, Montevideo
Metro East	Zach Johnson, Lakeville - (online)
Duluth	Cindy Voigt
Minneapolis	Jenifer Hager
Rochester	Dillon Dombrovski
St. Paul	Nick Peterson

- c. Desrude also recognized the following people in attendance:
  - Screening board alternates:

District 2 Sam Anderson, Bemidji (online)			
District 3	Nick Preisler, St. Michael		
Metro West	Chris LaBounty, Plymouth (online)		

Minnesota Department of Transportation personnel:

Ted Schoenecker	Assistant Division Director - State Aid
-----------------	---

State Aid Programs Engineer- (online)
District 1 State Aid Engineer
District 3 State Aid Engineer
District 4 State Aid Engineer
District 7 State Aid Engineer
District 8 State Aid Engineer
Metro State Aid Engineer
Assistant Metro State Aid Engineer
Needs Section Supervisor
State Aid program support
MnDOT Senior Administrative Engineer

#### Others in attendance

Marc Culver. BMI	CEAM Legislative committee chair
Kyle Wallace	Minneapolis
Mike Van Beusekom	St. Paul
Adam Nafstad, Albertville	Needs study subcommittee (NSS)
Chad Milner, Edina	Needs study subcommittee (NSS)

#### II. Legislative update

- a. Desrude introduced Marc Culver, CEAM legislative committee chair.
- b. Culver thanked the chair and went over the outcomes to the legislative session. He observed that it was a busy session so there is a lot to cover, they adjourned on time with a couple of hours to spare, with a full budget, which has not happened for several sessions. Going on to share that there is some talk of a special session to complete some additional items. He deferred to State Aid staff for accuracy of his report out. There were some very dramatic changes last minute to the bills that were approved. Specifically, the transportation bill and the bonding bill. Culver went on to share some highlights:
- c. Bonding and cash bill 2023 capital budget
- Two bills: \$1.5 billion bonding- \$1.034 billion cash capital bill, spending some of the surplus.

Local road improvement program (LRIP)	\$78.9 million
LRIP townships	\$6 million
Local bridge RP	\$67 million
Railroad crossing	\$3.6 million
Safe routes to school (SRTS)	\$2.4 million
Active transportation	\$1.2 million
TH 65 in Anoka County	\$25 million
Inflow and Infiltration in Metro	\$12 million

Bonding and cash bill – 2023 capital budget – Spreadsheet here:
 HF669-670-Final-5-22-23.pdf (senate.mn)

#### d. Transportation omnibus bill

•	
Local road improvement program (LRIP)	\$18 million

Local Bridge RP	\$18 million
TH 65 in Anoka Cnty	\$9 million
BRT	\$72 million

- Text for the transportation omnibus bill can be found here:
   HF 2887 5th Engrossment 93rd Legislature (2023 2024) (mn.gov)
- Spreadsheet for Omnibus Bill here:

<u>Transpo-Omnibus-FY-24-25 ConfCommitteeReport.pdf (senate.mn)</u>

- i. Corridors of commerce, line 42.19
  - Total \$158 million over two years.
- ii. Retail delivery fee, line 57.19
  - 50 cents on over \$100 orders some exclusions will fund a new Transportation Advancement Account as follows:
  - 36% to Metro Counties
  - 10% to CSAH Fund
  - 15% to Large Cities Assistance Account (sort of the equivalent of the wheelage tax) two funding sources going into this account. Can be used on any city roadways, distributed like Municipal State Aid (MSA) maintenance dollars. Based on MSA distribution formula. Large city is a MSA city.
  - 27% to Small Cities Assistance Account- cities under 5000 population
  - 11% to Town Road Account
  - Line 57.19
- iii. Gas tax indexing, line 67.16
  - Last minute addition
  - Set by commissioner.
  - Tied to Minnesota Highway Construction Cost Index for the reference year. Beginning on Aug. 1, 2025, the increase will not exceed 3%.
  - Cannot be reduced below statutory values.
- iv. Auto parts sales tax, line 72.1
  - 43.5% into HUTDF- distributed according to the usual percentages
  - The remaining portion, in increasing percentages until 2033 will go into the transportation advancement account as well.
- v. Metro area sales tax, <u>line 75.4</u>
  - Three quarters of a percent
  - 17% of that will go to metro counties with strings attached. Cannot be used for capacity projects. Can be used for maintenance projects, active transportation, safety studies, transit, and complete streets.
- vi. Establishes an Advisory Council on Traffic Safety, line 84.6
  - Toward zero death program
  - Advises the governor and heads of state departments and agencies on policies, programs, and services affecting traffic safety
  - 36 members
- vii. Greenhouse Gas Emissions Impact Assessment and Vehicle miles travelled (VMT), <u>line 107.7</u>
  - This has been being discussed at the legislative committee for the last few months.

- If you are doing a capacity project on a trunk highway, a GHG emission assessment and change in VMT must be done. Compare to how it lines up with the state goals for both. If it is not in alignment with the state goals, the scope of the project needs to be changed to mitigate the impacts, or it will not be included in the STIP. GHG Mitigation defined in the bill, but not VMT mitigation.
- There are questions regarding how to implement this.
- Working group identified in legislation. CEAM will have two representatives, line 208.4. Dombrovski and Culver will serve. County engineers will also have two representatives. As will MOVE MN. The purpose is to discuss the mitigation.
- viii. Speed safety cameras study, <u>line 209.12</u>
  - By November 1, 2024, the commissioner of public safety must submit a report to the legislative committees with jurisdiction over transportation policy and finance that identifies a process and associated policies for issuance of a mailed citation to the owner or lessee of a motor vehicle that a speed safety camera system detects is operated in violation of a speed limit.
- e. Culver concluded his update and asked the group if there were questions.
- f. Schoenecker shared that people are already asking how much more money the additional funding means for individual cities. He asked for time to review the bill and understand all the new funding. State aid is already working on this, as soon as they know, they will share the information with cities.
- g. Culver discussed the positives of the indexed gas tax for cities.
- h. Erickson added that they moved back a few years the 3% max indexing for the gas tax to capture the actual inflation. He shared that there was a large increase of 2021 about 13%.
- i. Desrude thanked Culver for the update.

#### III. Review of the 2023 Municipal Screening Board Data book (Lanoux)

- a. Introductory information/ Approve Fall MSB minutes
- Lanoux gave introductory information on what was going to be covered. Clarifying
  that action for tomorrow's meeting is to update the unit prices which drive the 25
  year construction needs. He shared that most of his discussion will be regarding the
  street lighting needs recommendation and change to the calculation from the NSS.
- Lanoux shared language from MS 162.13: "Lighting costs and other costs incidental to construction and maintenance, or a specified portion of such costs, as set forth in the commissioner's rules, may be included in determining money needs."
- Lanoux highlighted the action items from the Oct. Screening Board minutes: Pages 6-13 that were reviewed at the district meetings:
  - i. Review of the lighting needs back to the NSS to look at an AADT group-based recommendation only, and not looking at after the fact or any other items.
  - ii. Approve the Needs Recommendation Letter to the Commissioner
  - iii. Approve the resolution regarding the research account as read
- Desrude called for a motion to approve the minutes from the Oct. 2022 MSB.
- Motion to approve the minutes by Trowbridge, seconded by Dombrovski. Motion carried 13-0.

- b. Unit price recommendations:
- Lanoux explained that he would be providing an overview of the MSB data book, including the review of the NSS recommendations.
- Lanoux started with the NSS unit price recommendations (Page 18). Explaining that the discussion would be broken out into two areas, streetlighting and everything else. He noted that NSS members are here for any questions.
- Lanoux reviewed the minutes of the NSS meeting and associated unit price recommendations, except for the street lighting unit prices.
- c. Street lighting unit price recommendations
- Lanoux moved on to discuss street lighting recommendations. Clarifying that the
  action item was to review streetlighting needs and look for an AADT group-based
  recommendation.
- Lanoux then went on to page 45 in the book for the street lighting item, reading Mn statute 162.13 and the current MSB resolution on lighting to set the foundation for the conversation. He reviewed in detail the NSS minutes, sharing the 12 possible scenarios for streetlighting, walking through each scenario to and the information that was used by the NSS to develop their recommendation. It was noted that each had different winners and losers. After careful consideration, the NSS recommends scenario 3 which had the unit price for street lighting calculated as follows.

Traffic Group 1: \$0 per mile
Traffic Group 2: \$142,500 per mile
Traffic Group 3: \$142,500 per mile
Traffic Group 4: \$142,500 per mile
Traffic Group 5: \$195,000 per mile
Traffic Group 6: \$195,000 per mile
Traffic Group 7: \$195,000 per mile
Traffic Group 8: \$195,000 per mile

It is recommended that these unit prices will remain until the MSB requests a study on this item on any year it is deemed necessary.

- Owens shared the reasons why the NSS believed that this made sense and is defendable.
- Lanoux clarified that the direction was to find a traffic-based way to provide needs for streetlighting.
- Desrude thanked Lanoux and the NSS for their work on this item. She then asked if there were questions from the group. There were none
- d. Traffic Counting (counting cycle and resolution)
- Lanoux went over the current resolution on page 76 of the book. Explaining that it
  had been relatively unchanged since the 60s. He shared a request from MnDOT
  traffic forecasting and analysis (TFA section, that they would appreciate, for
  simplicity and more efficient use of available resources, if the locals would be
  willing to switch to the required federal count cycle based on functional class. (a 3
  to 6 year cycle). Adding that this had been discussed at each of the pre-screening
  board meetings.

- He provided the reactions from the district meetings that there was not a consensus one way or the other and asked the board if there were additional questions or concerns about the recommendation.
- Lanoux indicated that he is not drafting a resolution for approval tomorrow, that would need to come from the screening board. Encouraging additional discussion this evening
- Desrude opened it up for additional discussion by the board. There was none.

#### IV. Other discussion items

- a. State Aid report
- Elwood indicated that she did not have anything to report today and will provide a report on Day 2
- V. Desrude asked the board if there were any other topics before we adjourn. There were none. Being that there were no additional topic Desrude entertained a motion to adjourn until 8:30am Wednesday morning
  - a. Motion to adjourn by Voight, seconded by Fisher. Motion carried 13-0.

Meeting adjourned at 1:56 pm

#### WEDNESDAY, MAY 24, 2023

**I.** Call to Order by Chair Desrude at 8:30 am. The following members were present:

District 1	Jason Fisher, International Falls
District 2	Steve Emery, East Grand Forks - (online)
District 3	Layne Otteson, Big Lake
District 4	Tom Trowbridge, Moorhead
Metro West	Will Manchester, Minnetonka
District 6	Brandon Theobald, Kasson
District 7	Joe Stadheim, New Ulm - (online)
District 8	Mike Amborn, Montevideo
Metro East	Zach Johnson, Lakeville
Duluth	Cindy Voigt
Minneapolis	Jenifer Hager
Rochester	Dillon Dombrovski
St. Paul	Nick Peterson

#### II. Unit price recommendations

- a. Desrude asked for any discussion on the unit price recommendations of the NSS on Page 29 of the book. Clarifying that the unit price recommendation for streetlighting will be broken out for separate discussion and motion.
- b. There was no discussion.
- c. Desrude entertained a motion on unit price recommendations, except streetlighting.

- d. Motion to approve by Trowbridge, seconded by Voight. The motion carried 13-0 after a roll call vote.
- e. Desrude asked for any discussion on the streetlighting unit price recommendations on Page 29, and the corresponding lighting resolution that will need to be revised. (current resolution is on page 71).
  - Stadheim indicated that the consensus of District 7 at the pre-screening board was to support scenario 3, consistent with the NSS recommendation.
- f. Desrude entertained a motion on the NSS streetlighting unit price recommendations including the street lighting recommendation and resolution change shown in the NSS meeting minutes on page 23 of the book.
- g. Motion to approve by Fisher, seconded by Hager. The motion carried 13-0 after a roll call vote.

#### III. Traffic counting

- a. Desrude asked for any discussion on Traffic counting (resolution on page 76) and the current counting cycles for metro and outstate cities.
  - Voight asked for a clarification on timing, wondering if it changes to a longer counting cycle if it would prohibit individual cities from counting more frequently and having MnDOT process them.
  - Lanoux indicated that the cities would have flexibility to count more often, but it could be at their own expense.
  - Schoenecker agreed with Lanoux, expanding that if the board does not act
    on this item today State Aid would like guidance to go back to talk to
    MnDOT about it to gain a better understanding of why this is a request.
  - Van Beusekom asked how will counting on newly designated state aid streets be handled.
  - Schoenecker indicated that he was not sure.
  - Lanoux referred to item 4 in the resolution, which states that a city enters the count and the DSAE approves it for new streets giving flexibility to start counting sooner.
  - Thompson asked if MnDOT did the counts for smaller cities
  - Schoenecker confirmed that MnDOT does the counts for smaller cities in greater.
  - Thompson indicated that this could become a cost for those cities.
  - Schoenecker confirmed.
  - Otteson indicated that the discussions at District 3 were in favor of no change.
  - Desrude clarified that the question before the group is should there be a change to the traffic counting cycle, asking for any additional discussion.
  - Trowbridge shared that District 4 is open to a change, understanding the
    challenges for MnDOT to get the counts done. They were just not ready to
    change until more information could be provided on how it was going to
    work. For example, due to circumstances, there are some roads that a city
    may want to do more frequently, not sure how would they be handled.

• Desrude observed that the group does not want to make a change at this time. Since there was no action taken on this item, the resolution will stay the same and there will be no changes to the counting cycles.

#### IV. State Aid report (Elwood)

- a. Cooperative maintenance agreements for shared use paths.
- Elwood shared that limited use permits (LUPs) for trails in MnDOT right of
  way are being converted to a Cooperative Maintenance Agreements for
  Shared Use Paths. The agreement will use the existing cooperative
  agreement template. The city will construct the trail and be responsible for
  routine and minor maintenance. The state will own the trail. Future
  replacement will follow MnDOT cost participation policy.
- Desrude observed that one of the biggest benefits is that this agreement will not expire after 10 years, LUPs do.
- Theobald asked what to do about existing LUPs.
- Elwood indicated that MnDOT would convert those to a Cooperative agreement.
- Theobald inquired if it would also apply to pedestrian bridges.
- Elwood offered to investigate that.
- Owens asked how it would be applied to a trail that moves in and out of MnDOT right of way. Wondering if he would have to quit claim the easements for the portion of the trail not on MnDOT right of way.
- Schoenecker apprised that this situation would likely be more of a candidate for an LUP.
- Elwood agreed that a city can still ask for an LUP, if there are special
  circumstances, such as amenities or the city wants to maintain ownership. If
  it is just a typical trail for transportation purposes, on MnDOT right of way,
  the agreement might make more sense.
- Culver noted that sidewalks are also transportation infrastructure. He asked how MnDOT approaches them in their right of way. wondering how they are different than trails.
- Schoenecker explained that sidewalks were usually incorporated into MnDOT projects and covered by a cooperative agreement. However, trails were not. This disparate treatment of sidewalks was part of the reason it made sense for trails to be covered by Cooperative agreements.
- Elwood emphasized that they will work with the cities work through this, if anyone needs help, please reach out to your DSAE, herself or Schoenecker.
- Voight thanked Elwood for working so diligently on this and making it happen. Observing that State Aid takes care of business.
- b. Local partnership program (LPP)
- Elwood described the local partnership program for projects on the trunk highways system and indicated that the overall intent of these projects is to build partnership. To make it easier and more efficient, they continue to work on streamlining that process and emphasized the desire to improve communication with all levels of MnDOT. The CEAM executive committee will be meeting with MnDOT leadership in a couple weeks. She is interested

in hearing stories about good and not so good experiences with the process. With the intent to make it better. If anyone in the group has a story to share, please reach out to members of the executive committee, Elwood, Schoenecker, or Vizecky before that meeting on June 12. Things such as taking more time then needed, more budget, please share. The counties are also having the same conversations with MnDOT leadership.

- Desrude asked for a list of recent LPP projects so she can reach out to them to see if they have something to share.
- Elwood responded that they would get that to her.
- Saatela Foster suggested Grand Rapids as a resource.
- c. Federal project review
- Elwood communicated that there is a lot of new federal money, there are many new staff, new city and county engineers. She observed that it will take time for state aid to gear up and train in new people. There will be more questions. She requested patience and understanding. She asked that plans get in as soon as possible, that will help them get things reviewed with time to bid, that helps us since the bulk of the work is in springtime. She also indicated that state aid is also looking at additional staff needs. She shared that for example Erickson indicated that they used to have 20 federal projects a year, now it is 40-50.
- Erickson offered that 40-45 normal year for federal projects, in 2024 there are 85 projects.
- Elwood confirmed that is about double, so it is way up. That is just in Metro
  district and does not include everybody else. She continued that with IIJA,
  the bonding bill and other new programs that there are new things to
  administer and stay on top of. State aid is working staffing needs, we will
  continue to do all we can, if concerns come up, please let State Aid know.
- Owens inquired if there more money in Active Transportation grant than last year.
- Schoenecker responded that there is an additional \$20M for the first two
  years of the biennium. He continued that there are many new grant
  solicitations coming out, and state aid will be discussing timing of these
  solicitations, to balance staff workload and help the locals.
- d. Additional discussion
- Owens asked Schoenecker to explain Long eared bat exceptions and how to apply.
- Schoenecker requested additional time to follow-up he had just had some email communications. He went on to clarify that if it is a Federal project it will be covered by the PM, if it is a non-federal project then it is up to the individual city to document your process.
- Voigt inquired if there is a backlog for Federal project approval.
- Elwood responded that it usually takes about a month at this time of year.

#### V. Last call for any other discussion topics

Desrude asked for any other discussion topics. There were none.

- **VI.** Desrude thanked the following:
  - a. Members of the NSS for all their work on the streetlighting needs.
  - b. Screening Board members for attending and participating.
  - c. Duchene for organizing the networking event.
  - d. Lanoux and Stone for setting everything up and a great script
- VII. Desrude noted that the Fall Screening Board meeting will be at Chase on the Lake (Walker, MN)- October 24 and 25, 2023

#### VIII. Expense Reports

a. Stone indicated that the board should send in your expense report, including mileage both ways, and your Cragun's receipt. She committed to send out a reminder. If you have questions, reach out to her.

#### IX. Adjournment

- a. Desrude asked for a motion to adjourn
- b. Motion by Johnson, seconded by Trowbridge. The motion carried 13-0.

Meeting adjourned at 8:31 am.

Respectfully submitted,

Municipal Screening Board Secretary St. Louis Park Engineering Director

## **NOTES ON POPULATION DATA**

Fifty percent of the total apportionment is distributed on prorated share of population. The State Demographer & Metropolitan Council released their latest 2022 population estimates in July of 2023. These figures, or the 2020 Federal Census population figures (whichever are greater), provide the basis for each city's upcoming 2024 apportionment.

As of 2023, there are 151 MSAS cities. Their overall population increased by 1.6% since the 2020 Federal Census.

Twelve cities had population increases of over 5.0% in just the last year: Byron (5.0%), Bemidji (5.3%), Delano (5.5%), North Branch (5.8%), Princeton (6.4%), Otsego (6.7%), Lake Elmo (6.8%), Cambridge (6.9%), St. Michael (7.1%), Carver (8.7%), Corcoran (11.1%), and Dayton (15.7%).

Ten cities have seen a population decrease of at least -2.0% since the 2020 census.

The cities of Chisholm, Circle Pines, & Morris have populations under 5,000. These cities remain eligible to be included in the MSAS distribution. (Minnesota Statute 162.09 subd.4)

The City of North Oaks has a population of 5,195. All residential roads in North Oaks are private roads, so the city is unable to establish a Municipal State Aid Street System. North Oaks is not a MSAS city as of this time.

These cities were once MSAS cities: Ely (3,258), Eveleth (3,515), Luverne (5,033), and Pipestone (4,106). The city of Luverne will be regaining MSAS status in 2024.

## To Become an MSAS Eligible City

For a city that is not receiving a MSAS fund apportionment: If the city's population total from the decennial census is at least 5,000, or a population estimate, from either the Metropolitan Council or State Demographer, estimates that the city's population is at least 5,000, the city becomes MSAS eligible.

The cities of Becker, Elko New Market, Lindstrom, and Luverne all passed 5000 population this summer and will be eligible MSAS cities in 2024. This will bring to total number of MSAS cities to 155.

## To Be Dropped as an MSAS City

For a city to be *dropped* from the MSAS eligible list, the following scenario must occur:

- 1) The decennial census must show that a city's population has dropped below 5,000.
- 2) For five years after the census, annual population estimates must show that a city's population has stayed below 5,000. (see Minnesota Statute 162.09 subd.4)

## **2023 POPULATION SUMMARY**

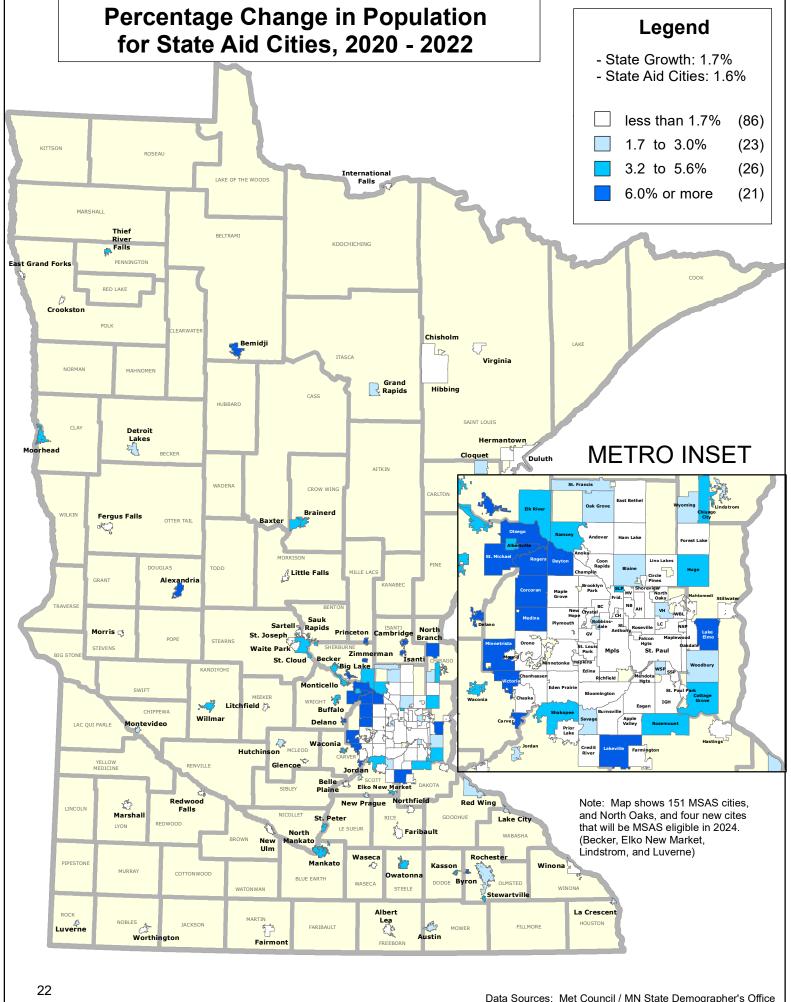

The populations used for 2024 Allocations are based on the 2020 Federal Census or the most recent State Demographer / Met Council estimates, whichever are greater

\*\* population deemed to be 5000, MS 162.09
The cities of Becker, Elko New Market, Lindstrom, and Luverne all surpassed 5000 population and will be eilgible MSAS cities in 2024

## **MSAS POPULATION & ALLOCATIONS**

Fifty percent of the total apportionment sum is distributed on a prorated share of each city's population. The Met Council / State Demographer's most recent population estimates were released in July 2023 and will be used to determine each city's share of the 2024 population apportionment. (note: 2020 Federal Census populations are used if a city's last census figure is greater than their most recent population estimate).

Any adjustments made to the population estimates in this report would be released in December 2023. Potential changes would be minor and presented in the January 2024 apportionment book. Changes could include population adjustments due to annexations, detachments, or any other minor revisions made by the State Demographer.

The distribution amount for the 2023 population apportionment was \$107,584,511. Using this same amount for 2024, each city would earn approximately \$25.83 per capita (a 26 cent drop from last year). This projection will be revised when the actual revenue for the 2024 apportionment becomes available in January.

## 2024 TENTATIVE POPULATION ALLOCATIONS

Municipality	Population used for 2023	Population used for 2024	2023 Population Allocations (last year)	2024 Population Allocations (this year)	Difference Between last two Allocations	Allocation % Change

A city's Population Allocation equals the total population apportionment amount, divided by the total population of all cities, multiplied by the city's population used for 2024.

2023 <u>\$107,584,511</u> \$26.09 per person 4,123,340

2024 <u>\$107,584,511</u> \$25.83 per person 4,165,280

The population increase from 2023 to 2024 for allocation purposes is **41,940** (1.0% increase overall)

65 Cities Increased their population allocation.

86 Cities Decreased their population allocation.

## NOTES AND COMMENTS

	27

## **MILEAGE, NEEDS AND APPORTIONMENT**

The cities' share of the *Highway User Tax Distribution Fund* will be announced in January when the Commissioner of Transportation makes a determination of the 2024 apportionment. Allocations in this report are tentative and will be based off the 2023 total apportionment amount of **\$215,169,023**. Using last year's amount makes for a conservative January forecast and allows us to better see effects of changes in Construction Needs.

System wide mileage increases every year. This is due to the increasing number of eligible cities and to overall growth in local street mileage.

Tentative Maintenance and Construction allocations are not provided in this report. Cities have the option of receiving a minimum of \$1,500 per mile or a percentage up to 35% of their total allocation for Maintenance. If a city desires to receive more than the minimum maintenance, or make a change to their future maintenance request, the city should inform the Municipal State Aid Needs Unit prior to **December 15th**. An email regarding Maintenance Requests will be sent to each city engineer around November 1st.

## 2023 ITEMIZED TABULATION OF NEEDS

The 2023 Money Needs continued to increase over the last year. This overall increase is due to added system mileage, one new city (Princeton), and an increase to unit costs in the Needs study. (The unit cost for street lighting saw a significant increase after remaining at \$100,000 per mile since 2006. See Screening Board Resolutions for all unit prices used in the 2023 Needs computation.)

The "2023 item by item tabulation of Needs" shows all construction items used in the Municipal State Aid Needs Study. ("After the fact" items are discussed later in this report). This tabulation is provided to give each city an opportunity to compare their Needs of the individual construction items to that of other cities.

Most unit cost items draw continuous needs for cities and are based on traffic counts. Traffic Signals and Structures (bridges/culverts) draw Needs on a "per item" basis, so some cities do not draw Needs one these costs because they may not have these items on their Municipal State Aid System.

The average cost per mile is \$2,803,912 (up from \$2,611,876 last year). Credit River currently has the lowest cost per mile at \$1,684,836 while Minneapolis has the highest cost at \$3,736,173 per mile.

The five cities with the highest cost per mile are listed alphabetically as follows: Edina, Minneapolis, Moorhead, Rochester, and Saint Paul.

The five cities with the lowest cost per mile are listed alphabetically as follows: Credit River, East Bethel, Ham Lake, International Falls, and Saint Francis.

### **COMPARISON OF NEEDS BETWEEN 2022 and 2023**

2023 Needs are computed for the January 2024 distribution

Needs Item	2022	2023	Difference	% increase
Grading/Excavation	\$1,070,346,815	\$1,128,669,393	\$58,322,578	5.4
Total Storm Sewer	873,304,528	926,456,280	53,151,752	6.1
Gravel Base	1,330,248,654	1,398,289,381	68,040,727	5.1
Bituminous Surface	1,480,143,391	1,559,428,089	79,284,698	5.4
Curb and Gutter	946,054,990	1,004,523,341	58,468,351	6.2
Sidewalk Construction	1,509,293,482	1,601,684,908	92,391,426	6.1
Traffic Signals	385,412,534	406,731,486	21,318,952	5.5
Street Lighting	387,715,500	594,504,454	206,788,954	53.3
Structures	318,823,265	347,084,249	28,260,984	8.9
Engineering	1,826,295,685	1,972,821,654	146,525,969	8.0
Total Unadjusted Money Needs	\$10,127,638,844	\$10,940,193,235	\$812,554,391	8.0
Total Needs Miles	3,877.16	3,901.75	24.59	0.6
ATF Right of Way	\$74,520,186	\$66,541,728	(\$7,978,458)	(10.7)
ATF Retaining Wall	7,201,759	7,178,588	(23,171)	(0.3)
ATF RR Crossing	1,980,648	1,980,648	0	0.0
ATF Bridge over MSAS Route	378,684	378,684	0	0.0

### 2023 MILEAGE REPORT

The 2023 Mileage Report shows all categories of mileage used in the Municipal State Aid Needs Study. This report is provided to give cities the opportunity to view various mileage categories and can also be used as a reference when reviewing and comparing against your city's local road inventory.

The **Total System Length** reflects an overall increase from last year. This increase is due to the addition of one new MSAS city and to overall system growth.

In addition to adding a new city, 42 other cities made changes to their system mileage in 2023.

'Total System Length' and 'Total Needs Length' are different within some cities. These categories differ when cities have designations that are either "Outside City Limits" or defined as "MSB approved One Way Mileage".

Total Needs Length for all cities is 3,901.75 miles.

Total System Length for all cities is 3,907.81 miles.

The category '**Total Needs Coded as Common Boundary**' is for shared MSAS roads on corporate limit boundaries. For these roadways, two adjacent cities are drawing Needs on half the actual roadway length.

 The information on this Mileage Report can be helpful as you fill out your upcoming 2023 Annual Certification of Mileage form (due January 2024). Typically, we expect that your "Total Needs Length" from this Mileage Report will match line 13 of the Certification of Mileage. Should there be a discrepancy, we ask that you provide an explanation on the backside of the Annual Certification.

One reason there could be a discrepancy, is if a city wishes to certify a mileage change due to a MSAS route realignment, or new construction, that occurred *after* the city submitted their 2023 Needs updates. In this case, the end of the year mileage certification would be "*ahead of the Needs*" until corresponding mileage changes get updated in the Needs the following spring.

Another reason for a discrepancy is if a city had an approved system revision that occurred *after* their Needs were submitted in 2023 (but approved by the Commissioner before December 31<sup>st</sup>). Revisions from such a system revision can be included on your upcoming 2023 mileage certification, and then updated in the Needs Application in the spring of 2024.

# 2023 CONSTRUCTION NEEDS & 2024 CONSTRUCTION NEEDS ALLOCATIONS

Fifty percent of the total apportionment is determined on a prorated share of each city's construction Needs. The construction Needs in this report are computed from annual Needs Updates submitted by each city. Before determining each city's allocation, the following Municipal Screening Board mandated adjustments are applied to the "unadjusted" construction Needs.

- Excess Unencumbered Construction Fund Balance Adjustment
- Low Balance Incentive
- After the Fact Right of Way Adjustment
- After the Fact Retaining Wall Adjustment
- After the Fact Railroad Crossing Adjustment
- After the Fact Railroad Bridge over MSAS Adjustment
- Excess Maintenance Account (none for 2023)

For this year, individual adjustments will be applied to cities with MSAS mileage outside their corporate limits (see statute language change to MS 162.13 Subd 2).

Little Falls will receive a onetime individual adjustment.

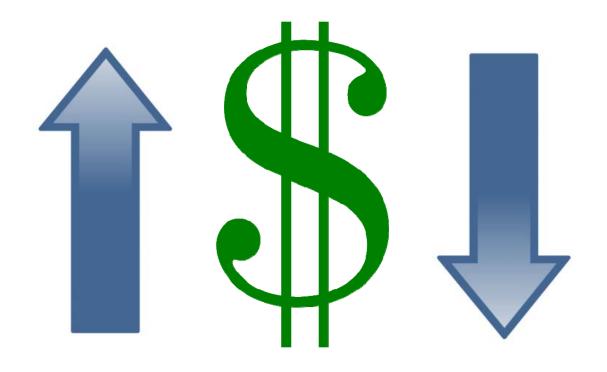

By applying all these adjustments, the "Adjusted Construction Needs" are calculated for each city. These are the Needs figures used to determine the Construction Needs Allocations. The actual amount of the road user fund for distribution to the Municipal State Aid Account will not be available until January 2024.

The tentative 2024 Needs allocations in this book will be based on the 2023 money needs apportionment amount of \$107,584,512.

The Municipal Screening Board will make their Money Needs recommendation to the commissioner by Nov. 1<sup>st</sup>

The data on the following pages are for the Screening Board's use in determining the Tentative 2023 Construction Needs. These tabulations show the impact of all adjustments and tentative allocations to each city.

# Adjustments to the Restricted Construction Needs

## EXCESS UNENCUMBERED CONSTRUCTION FUND BALANCE ADJUSTMENT

### **Screening Board Resolutions state:**

The December 31 construction fund balance will be compared to the annual construction allotment from January of the same year. If the December 31 construction fund balance exceeds 3 times the January construction allotment, and the construction fund balance is over 3 times the average construction allotment for all cities excluding cities of the first class (hereinafter referred to as the adjusted average construction allotment), then the negative adjustment to the Needs will be 1 times the December 31 construction fund balance. In each consecutive year the December 31 construction fund balance exceeds 3 times the January construction allotment (and the balance is over 3 times the adjusted average construction allotment) the negative adjustment to the Needs will be increased to 2, 3, 4, etc. times the December 31 construction fund balance until such time the Construction Needs are adjusted to zero.

If the December 31 construction fund balance drops below 3 times the January construction allotment and subsequently increases to over 3 times, the multipliers will start over with one.

The adjusted average construction allotment used for this purpose shall not decrease in value from one year to the next.

If a city wishes to justify their balance in excess of said limits, and request an exemption to the excess balance adjustment, their request must be reviewed and approved by the Municipal Screening Board at their Annual Fall Meeting.

### LOW BALANCE INCENTIVE

### **Screening Board Resolutions state:**

The amount of the Excess Unencumbered Construction Fund Balance Adjustment will be redistributed as a positive adjustment to the Construction Needs of all municipalities whose December 31st construction fund balance is less than 1 times their January construction allotment of the same year. This redistribution will be based on a city's prorated share of its Unadjusted Construction Needs to the total Unadjusted Construction Needs of all participating cities times the total Excess Balance Adjustment.

The July 28, 2023 balance is used for this report. The final adjustment will be made using the December 31, 2023 construction fund balances.

# **EXCESS BALANCE ADJUSTMENT REDISTRIBUTED AS LOW BALANCE INCENTIVE**

Balance floor for Dec. 31, 2023 is **\$2,744,754**. (see Screening Board Resolutions) Ratio must be 3X or greater for excess balance adjustment to be applied

### AFTER THE FACT RAILROAD CROSSING ADJUSTMENT

### Screening Board Resolution:

Any Railroad Crossing improvements shall not be included in the Needs Calculations until the project has been completed and the actual cost established. At that time a Construction Needs adjustment shall be made by annually adding the local cost (which is the total cost less county or trunk highway participation) to the annual Construction Needs for a 15 year period. Only State Aid eligible items are allowed to be included in this adjustment, and all Railroad Crossing Needs adjustments must be input by the city and approved by the District State Aid Engineer.

Municipality	Eligible Railroad Crossing Expenditures	New Railroad Crossing Expenditures 2023 (none)	Expired Railroad Crossing Expenditures	Expire Date	Total Railroad Crossing Adjustment for 2024 Apportionment
Buffalo	\$528,566			2031	\$528,566
Cambridge	\$234,357			2031	\$234,357
Fergus Falls	\$299,555			2029	\$299,555
Moorhead	\$258,980			2032	\$258,980
Moorhead	\$366,805			2032	\$366,805
Moorhead	\$123,641			2037	\$123,641
New Ulm	\$18,433			2030	\$18,433
Northfield	\$150,311			2037	\$150,311
Total	\$1,980,648	\$0	\$0		\$1,980,648

### AFTER THE FACT RAILROAD BRIDGE OVER MSAS ADJUSTMENT

### RR Bridge over MSAS Route Rehabilitation

Any structure that has been rehabilitated (Minnesota Administrative Rules, CHAPTER 8820, 8820.0200 DEFINITIONS, Subp. 8. Bridge rehabilitation) shall not be included in the Needs calculations until the rehabilitation project has been completed and the actual cost established. At that time a Construction Needs adjustment shall be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 15-year period. Only State Aid eligible items are allowed to be included in this adjustment and all structure rehabilitation Needs adjustments must be input by the city and approved by the DSAE.

### RR Bridge over MSAS Route Construction/Reconstruction

Any structure that has been constructed/reconstructed (Minnesota Administrative Rules, CHAPTER 8820, 8820.0200 DEFINITIONS, Subp. 31. Reconstruction) shall not be included in the Needs calculations until the project has been completed and the actual cost established. At that time a Construction Needs adjustment shall be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 35-year period. Only State Aid eligible items are allowed to be included in this adjustment and all structure construction/reconstruction Needs adjustments must be input by the city and approved by the District State Aid Engineer

Municipality	Eligible Railroad Bridge over MSAS Expenditures	Type of Construction	Expire Date	Total RR Bridge over MSAS Adjustment for 2024 Apportionment
		Construction/		-
Thief River Falls	\$378,684	Reconstruction	2049	\$378,684
Total	\$378,684			\$378,684

### **OUTSIDE CITY LIMITS ADJUSTMENT**

In 2023, statutory language changes affected the definition of "Money Needs" as defined in MS 162.13 Subd 2. As a result, roadways coded as "outside city limits" were deemed eligible to draw Money Needs. The following statutory language changes were implemented.

Money needs defined. For the purpose of this section money needs of each city having a population of 5,000 or more are defined as the estimated cost of constructing and maintaining over a period of 25 years the municipal state-aid street system in located and established by such city. Right-of-way costs and drainage shall be included in money needs. Lighting costs and other costs incidental to construction and maintenance, or a specified portion of such those costs, as set forth in the commissioner's rules, may be included in determining money needs. To avoid variances in costs due to difference in construction and maintenance policy, construction and maintenance costs shall be estimated on the basis of the engineering standards developed cooperatively by the commissioner and the engineers, or a committee thereof, of the cities.

Because roadways "outside city limits" are newly eligible to draw money needs, the Needs Application will require an enhancement to include these segments in the overall calculation. Until then, State Aid will be applying a positive After-the-Fact adjustment to cities with MSAS System mileage not completely within their corporate boundaries.

### INDIVIDUAL ADJUSTMENTS

The following cities will receive individual adjustments due to having MSAS mileage outside their city limits.

Andover: \$55,369 for 0.04 miles inside the city of Ham Lake.

Blaine: \$402,577 for 0.25 miles shared with the small city of Lexington.

Brainerd: \$125,163 for 0.04 miles shared with a township.

Faribault: \$838,934 for 0.32 miles shared with a township.

Mahtomedi: \$43,643 for 0.02 miles shared with the small city of Willernie.

Mankato: \$240,038 for 0.11 miles inside a township.

Marshall: \$318,367 for 0.23 miles inside a township.

Mendota Heights: \$273,753 for 0.17 miles inside the small city of Mendota.

Montevideo: \$303,395 for 0.16 miles inside a township.

Moorhead: \$402,577 for 0.25 miles shared with a township.

Prior Lake: \$458,256 for 0.21 miles shared with a township.

Rochester: \$905,745 for 0.33 miles shared with a township.

Saint Michael: \$805,151 for 0.50 miles shared with a township.

Saint Peter: \$1,038,149 for 0.75 miles shared / inside a township.

White Bear Lake: \$21,822 for 0.01 miles inside a township.

The following city will receive an individual adjustment for a correction to last year's excess unencumbered construction fund balance adjustment.

Little Falls: \$2,533,428. Last year Little Falls received a negative adjustment. It was later determined that their balance did not exceed the balance limit.

Note: Excess Balance Adjustments are shown as of August 2023, but are not included with total adjustments because cities are continuing to make payment requests until December 3ast.

October 25, 2023

Nancy Daubenberger, Commissioner Mail Stop 100 395 John Ireland Blvd. St. Paul, MN 55155

Dear Commissioner Daubenberger:

We, the undersigned, as members of the 2023 Municipal Screening Board, having reviewed all information available in relation to the 25 year money needs of the Municipal State Aid Street System do hereby submit our findings as required by Minnesota Statutes.

We recommend that these findings be modified as required by Screening Board Resolutions, and that any new municipalities that become eligible for State Aid by special census, incorporation, annexation or population estimates have their mileage and resulting money needs established and included in our findings.

This Board, therefore, recommends that the money needs, as listed on the attached, be modified as required and used as the basis for apportioning to the urban municipalities the 2024 Apportionment Sum as provided by Minnesota Statutes, Chapter 162.13, Subdivision 1.

### 2024 TENTATIVE CONSTRUCTION NEEDS ALLOCATIONS

Needs Value: \$1,000 in Construction Needs = approximately \$9.76 in apportionment

The following table shows each municipality's *Tentative* Money Needs Allocation based on a projected apportionment amount of \$107,584,512. The actual amount of the Road User Fund for distribution to the Municipal State Aid account will not be available until January 2024. This summary provides data and shows the impact of the adjustments to each municipality for the Board's use in establishing the Money Needs Apportionment Determination.

			2024	%

### CERTIFICATION OF MSAS SYSTEM AS COMPLETE

A Certification of a Municipal State Aid Street System may occur when a City certifies to the Commissioner of Transportation that its state aid routes are improved to state aid standards or have no other needs beyond additional surfacing or shouldering needs as identified in the annual State Aid Needs Report. This authority exists under Minnesota Rules 8820.1800 subpart 2, which reads in part:

When the county board or governing body of an urban municipality desires to use a part of its state aid allocation on local roads or streets not on an approved state aid system, it shall certify to the commissioner that its state aid routes are improved to state aid standards or are in an adequate condition that does not have needs other than additional surfacing or shouldering needs identified in its respective state aid needs report. That portion of the county or city apportionment attributable to needs must not be used on the local system.

When a system is certified as complete, the certification shall be good for two years. The dollar amount eligible for use on local streets will be based on the population portion of the annual construction allocation. The beginning construction account figure for this calculation shall be the amount of the current year's construction account which is not generated by construction needs.

# The dollar amount eligible to be spent on local street systems is determined as follows:

Determine what percentage the population allocation is of the total allocation. This percent is then multiplied times the construction allotment. This is the amount of the construction allotment that is generated by the population allocation. Only the construction allotment is used because the city has already received its maintenance allotment.

Population Allocation / Total Allocation \* Construction Allotment = Local Amount Available. (see allocation into 90p account on next page)

The following five cities are Certified Complete: Columbia Heights, Crookston, Falcon Heights, Fridley, and South St. Paul.

# 90P ACCT - LOCAL AMOUNT AVAILABLE AFTER JANUARY 2023 ALLOCATION

Prepared for the January 2023 book

The Maximum Local Amount Available may change upon receipt of any payment request.

	Fridley	Columbia Hgts	Falcon Hgts	South St. Paul	Crookston
Total Apportionment	\$1,345,618	\$874,061	\$213,416	\$1,065,539	\$502,972
Population	\$772,050	\$573,311	\$140,086	\$541,635	\$195,217
Money Needs	\$573,568	\$300,750	\$73,330	\$523,904	\$307,755
% based on Pop.	57.4%	65.6%	65.6%	50.8%	38.8%
Total Construction Allotment: Jan. 2023 (total apportionment - maintenance)	\$874,652	\$655,546	\$160,062	\$799,154	\$377,229
Allocation to 90p acct (amount of construction allotment based on Population)	\$501,833	\$429,983	\$105,065	\$406,226	\$146,413
Amount Remaining in 90p acct (as of 12/31/2022)	\$131,056	\$193,750	\$511,816	\$843,197	\$1,095,321
* Maximum Local Unemcumbered Amount Available after January 2023 Allocation	\$632,889	\$623,733	\$616,881	\$1,249,423	\$1,241,734

<sup>\*</sup> This is the amount available to spend on city streets after the 2023 allotments have added to the Balance Avaiable at the end of 2022. To find out how much is available for spending on local streets as of a specific date, please log on to SAAS Reports, select State Aid County and Municipality Report, select SAAS Status and then select your city and the Reporting Year/Month. The report numbered 90p - Muni Const Pop shows the amount available for local projects.

### HISTORY OF ADMINISTRATIVE ACCOUNT

TWO PERCENT OF THE TOTAL FUNDS AVAILABLE ARE SET ASIDE FOR THE ADMINISTRATION OF STATE AID. THE ACCOUNT IS USED FOR EXPENSES OF SCREENING BOARD MEETINGS, VARIANCE MEETINGS, PRINTING OF STATE AID MATERIALS, ETC.

	January	Year End			January	unexpended	
Year	Allotment	Balance	Spent	Year	Allotment	balance	Spent
1958	\$113,220	\$48,310	\$64,910	2014	3,235,357	880,506	2,354,851
1970	252,736	147,968	104,768	2015	3,413,892	1,045,899	2,367,993
1980	521,544	171,544	350,000	2016	3,548,041	1,171,781	2,376,260
1990	1,248,109	218,586	1,029,523	2017	3,551,701	1,078,127	2,473,574
2000	1,583,411	1,230,268	353,143	2018	3,937,329	1,587,167	2,350,162
2008	1,750,808	29,487	1,721,321	2019	3,948,897	1,364,462	2,584,435
2009	1,866,306	95,764	1,770,542	2020	4,321,254	1,976,567	2,344,687
2010	2,614,101	680,404	1,933,697	2021	3,948,622	1,607,929	2,340,693
2011	2,858,585	762,419	2,096,166	2022	4,524,750	1,953,896	2,570,854
2012	3,014,118	1,029,649	\$1,984,469	2023	4,410,727		
2013	3,125,654	888,606	\$2,237,048				

The unexpended balance of the administration account at the end of the year is transferred back to the MSAS fund and redistributed the following year.

## HISTORY OF THE RESEARCH ACCOUNT

Each year the Screening Board, provided for in section 162.13, Subdivision 3, may recommend to the commissioner a sum of money that the commissioner shall set aside from the municipal state aid street fund and credit to a research account. The amount so recommended shall not exceed 1/2 of 1% of the preceding apportionment. Any balance remaining in the research account at the end of each year from sum set aside for the year immediately previous, shall be transferred to the MSAS fund.

Be it resolved that an amount of \$1,075,845 (not to exceed 1/2 of 1% of the 2023 MSAS Apportionment sum of: \$215,169,023) shall be set aside from the 2024 Apportionment fund and be credited to the research account.

Year	Allotment	Spent	Year	Allotment	Spent
1958	\$0	\$0	2014	\$746,853	\$746,853

# **Enterprise MnDOT Mapping Application**

### Launch application

The Enterprise MnDOT Mapping Application (EMMA) references the most current version of Linear Referencing System (LRS) data. The LRS is a suite of Esri tools to manage and maintain route location information and roadway characteristic data. The data in this application is updated every weekend keeping current with the latest changes entered into the LRS.

Step 1: Launch application

Step 2: Enter City to search

Step 3: Click on the layer list icon

and turn on "City Route System" layer.

## **Municipal State Aid Construction Account AdvanceGuidelines**

#### **State Aid Advances**

<u>Minnesota Statutes 162.14, Subd. 6</u> provides for municipalities to make advances from future year's allocations for the purpose of expediting construction. This process not only helps reduce the construction cash balance, but also allows municipalities to fund projects that may have been delayed due to funding shortages.

The formula used to determine the annual amount available for advances will be between 20% and 25% of the January MSAS Construction allocation, influenced by the current construction cash balance, expenditures trends, repayments of previous advances, etc.

#### General Guidelines and Process for State Aid Advances from MSAS Construction Allocation

- 1. In October, the District State Aid Engineers (DSAE's) will solicit state aid cities for their preliminary proposed advances for the upcoming year. The DSAE's will prioritize the preliminary advance requests within their respective districts and submit to the Deputy State Aid Engineer, who will prioritize the requests on a statewide basis.
- 2. In early January, State Aid will determine the amount available for advances in that calendar year. The formula used to determine the annual amount available for advances will be between 20% and 25% of the January MSAS Construction allocation, influenced by the current construction cash balance, expenditures trends, repayments of previous advances, etc.
- 3. In mid-January, the Deputy State Aid Engineer will contact agencies that submitted preliminary advance requests with information on which preliminary advances likely can be approved. If all preliminary advance requests likely cannot be approved, this communication will be accompanied by a prioritized list of remaining preliminary advance requests. A generalized communication will also be sent to all state aid cities regarding the status of the advance program.
- 4. If all anticipated advances likely cannot be approved, the Deputy State Aid Engineer and District State Aid Engineers will convene monthly to review the available balance and consider approving additional advance requests based on the priority list. Local agencies can submit additional requests throughout the year, and they will be approved immediately if possible, or they will be prioritized along with the remaining advance requests.
- 5. The submittal of preliminary advance requests in October/November does not constitute an official advance request approval. Municipalities must submit a State Aid Advance Resolution authorizing the advance by their city council. The correct resolution must be used for each advance type and there are sample resolutions for each on the MnDOT State Aid Finance (SAF) webpage. Requests are good only for the year requested (cannot be submitted for multiple years) and void at 12/31 of that year.

Advances are not limited to the projects listed on the resolution, and the resolution itself does not guarantee that funds will be held. If a city decides they need a guarantee that the funds will be held (typically when a city is sure it will complete a project and is certain it will need an advance), it can submit a "Request to Reserve Advance Funds" to ensure funds will be available for their project. If a request to reserve funds is not submitted, project payments are processed in the order received by SAF until the maximum advance amount is reached. Advances are repaid from next year's allocation until fully repaid.

Sample Advance Resolutions and Request to Reserve Funds can be obtained from <u>SAF Forms & Resolutions</u> <u>webpage</u>. E-mail completed forms to your <u>DSAE</u> for review, and after DSAE approval, email to Mohamed Farah at <u>mohamed.m.farah@state.mn.us</u> in MnDOT State Aid Finance.

#### **Prioritization**

In general, priority projects include, but are not limited to, projects where agreements have mandated the city's participation, projects with advanced federal aid, bond principal payments, large agency projects which require multiple years of allocation, and other high priority projects. Small overruns and funding shortfalls may be funded but do require MnDOT State Aid approval. Municipalities with prior advances, and still repaying, will have their advance request considered a lower priority.

#### **Advance Limitations**

#### **Statutory**

None, reference Minnesota Statutes 162.14, Subd 6.

#### State Aid Rules

None, reference State Aid Rules 8820.1500, Subp. 10 & 10b (PDF).

#### State Aid Guidelines

Advance is limited to five times the municipalities' last construction allotment or \$4,000,000, whichever is less. Advance amount will be reduced by any similar outstanding obligations and/or bond principal payments due. The limit can be administratively adjusted by the MnDOT Chief Financial Officer.

Limitation may be exceeded due to federal aid advance construction projects programmed by the ATP in the STIP where state aid funds are used in lieu of federal funds. Repayment will be made at the time federal funds are converted. Should federal funds fail to be programmed, or the project (or a portion of the project) be declared federally ineligible, the local agency is required to pay back the advance under a payment plan mutually agreed to between MnDOT State Aid and the municipality.

# CURRENT RESOLUTIONS OF THE MUNICIPAL SCREENING BOARD

October 2023

# Bolded wording (except headings) are revisions since the last publication of the Resolutions

**BE IT RESOLVED:** 

### **ADMINISTRATION**

Appointments to Screening Board - Oct. 1961 (Revised June 1981, May 2011)

The Commissioner of Mn/DOT will annually be requested to appoint three (3) new members, upon recommendation of the City Engineers Association of Minnesota, to serve three (3) year terms as voting members of the Municipal Screening Board. These appointees are selected from the MnDOT State Aid Districts as they exist in 2010, together with one representative from each of the four (4) cities of the first class.

### Screening Board Chair, Vice Chair and Secretary - June 1987 (Revised June, 2002)

The Chair Vice Chair, and Secretary, nominated annually at the annual meeting of the City Engineers Association of Minnesota and subsequently appointed by the Commissioner of the Minnesota Department of Transportation will not have a vote in matters before the Screening Board unless they are also the duly appointed Screening Board Representative of a construction District or of a City of the first class.

### <u>Appointment to the Needs Study Subcommittee</u> - June 1987 (Revised June 1993)

The Screening Board Chair will annually appoint one city engineer, who has served on the Screening Board, to serve a three year term on the Needs Study Subcommittee. The appointment will be made at the annual winter meeting of the City's Engineers Association. The appointed subcommittee person will serve as chair of the subcommittee in the third year of the appointment.

# <u>Appointment to Unencumbered Construction Funds Subcommittee</u> – (Revised June 1979, May 2014)

The Screening Board past Chair will be appointed to serve a minimum three-year term on the Unencumbered Construction Fund Subcommittee. This appointment will continue to maintain an experienced group to follow a program of accomplishments. The most senior member will serve as chair of the subcommittee

### Appearance Screening Board - Oct. 1962 (Revised Oct. 1982)

Any individual or delegation having items of concern regarding the study of State Aid Needs or State Aid Apportionment amounts, and wishing to have consideration given to these items, will send such request in writing to the State Aid Engineer. The State Aid Engineer with concurrence of the Chair of the Screening Board will determine which requests are to be referred to the Screening Board for their consideration. This resolution does not abrogate the right of the Screening Board to call any person or persons before the Board for discussion purposes.

### **Screening Board Meeting Dates and Locations** - June 1996

The Screening Board Chair, with the assistance of the State Aid Engineer, will determine the dates and locations for Screening Board meetings.

### Research Account - Oct. 1961

An annual resolution be considered for setting aside up to ½ of 1% of the previous years' Apportionment fund for the Research Account to continue municipal street research activity.

### **Population Apportionment** - October 1994, 1996

Beginning with calendar year 1996, the MSAS population apportionment will be determined using the latest available federal census or population estimates of the State Demographer and/or the Metropolitan Council. However, no population will be decreased below that of the latest available federal census, and no city will be dropped from the MSAS eligible list based on population estimates.

#### Improper Needs Report - Oct. 1961

The State Aid Engineer and the District State Aid Engineer (DSAE) are requested to recommend an adjustment of the Needs reporting whenever there is a reason to believe that said reports have deviated from accepted standards and to submit their recommendations to the Screening Board, with a copy to the municipality involved, or its engineer.

### New Cities Needs - Oct. 1983 (Revised June 2005, May 2014)

Any new city having determined its eligible mileage, but has not submitted its Needs to the DSAE by December 1, will have its Needs based upon zero ADT assigned to the eligible mileage until the DSAE approves the traffic counts.

### <u>Certified Complete Cities</u> – May 2014 (Revised October 2014)

State Aid Operational Rule 8820.18 subp.2 allows cities to spend the population based portion of their Construction Allotment on non MSAS city streets if its MSAS system has been Certified Complete.

At the city's request, the District State Aid Engineer will review the MSAS system in that city and if the system has been completely built, may certify it complete for a period of two years. The same proportion of a city's total allocation based on population will be used to compute the population portion of its Construction Allotment.

If a payment request for a project on the MSAS system is greater than the amount available in the Needs based account, the remainder will come from the population based account, thereby reducing the amount available for non MSAS city streets.

A city may carry over any remaining amount in its population based account from year to year. However if a payment request for a project on a non MSAS city street is greater than the amount available in the population based account, the population based account will be reduced to zero and the city will be responsible for the remaining amount.

### Construction Needs Components – May 2014

For Construction Needs purposes, all roadways on the MSAS system will be considered as being built to Urban standards.

All segments on the MSAS system will generate continuous Construction Needs on the following items:

Excavation/Grading
Gravel Base
Bituminous
Curb and Gutter Construction
Sidewalk Construction
Storm Sewer Construction
Street Lighting
Traffic Signals
Engineering
Structures

### Unit Price Study- Oct. 2006 (Revised May, 2014)

The Needs Study Subcommittee will annually review the Unit Prices for the Needs components used in the Needs Study. The Subcommittee will make its recommendation to the Municipal Screening board at its annual spring meeting.

The Unit Price Study go to a 3 year (or triennial) cycle with the Unit Prices for the two 'off years' to be set using the Engineering News Record construction cost index on all items where a Unit Price is not estimated and provided by other MnDOT offices. The Screening Board may request a Unit Price Study on individual items in the 'off years' if it is deemed necessary.

### **Unit Costs** - May 2014, (Revised January 2015, May 2015, May 2023)

The quantities which the Unit Costs for Excavation/Grading, Gravel Base, and Bituminous are based upon will be determined by using the roadway cross sections and structural sections in each of the ADT groups as determined by the Municipal Screening Board and shown in the following table 'MSAS Urban ADT Groups for Needs Purposes'.

### MSAS URBAN ADT GROUPS FOR NEEDS PURPOSES

### Quantities Based on a One Mile Section

EXISTING ADT	NEEDS WIDTH	NEEDS GENERATION DATA	GRADING DEPTH (inches)	GRADING QUANTITY (cubic yards)	CLASS 5 GRAVEL BASE DEPTH (inches)	CLASS 5 GRAVEL BASE QUANTITY (Tons)	TOTAL BITUMINOUS QUANTITY (TONS)
0 EXISTING ADT & NON EXISTING	26 FOOT ROADBED WIDTH	2- 11' TRAFFIC LANES 0 PARKING LANES 2- 2' CURB REACTION	22 INCHES	11,655	6 INCHES	4,346	<b>2,917</b> 4 INCHES
1-499 EXISTING ADT	28' FOOT ROADBED WIDTH	2- 12' TRAFFIC LANES 0 PARKING LANES 2- 2' CURB REACTION	22 INCHES	12,496	6 INCHES	4,691	<b>3,182</b> 4 INCHES
500-1999 EXISTING ADT	34 FOOT ROADBED WIDTH	2- 12' TRAFFIC LANES 1- 8' PARKING LANE 1- 2' CURB REACTION	26 INCHES	17,698	10 INCHES	10,176	<b>3,978</b> 4 INCHES
2000-4999 EXISTING ADT	40 FOOT ROADBED WIDTH	2-12' TRAFFIC LANES 2-8' PARKING LANE	32 INCHES	25,188	16 INCHES	19,628	<b>4,773</b> 4 INCHES
5000-8999 EXISTING ADT	48 FOOT ROADBED WIDTH	4-11' TRAFFIC LANES 2- 2' CURB REACTION	35 INCHES	32,795	19 INCHES	27,907	<b>5,834</b> 4 INCHES
9000-13,999 EXISTING ADT	54 FOOT ROADBED WIDTH	4-11' TRAFFIC LANES 1-8' PARKING LANE 1-2' CURB REACTION	36 INCHES	37,918	19 INCHES	31,460	<b>8,287</b> 5 INCHES
14,000-24,999 EXISTING ADT	62 FOOT ROADBED WIDTH	4-11' TRAFFIC LANES 1- 14' CENTER TURN 2- 2' CURB REACTION	38 INCHES	45,838	20 INCHES	38,049	<b>11,535</b> 6 INCHES
GT 25,000 EXISTING ADT	70 FOOT ROADBED WIDTH	6-11' TRAFFIC LANES 0 PARKING LANES 2- 2' CURB REACTION	39 INCHES	53,172	21 INCHES	44,776	<b>13,126</b> 6 INCHES

The quantity used for **Curb and Gutter** Construction will be determined by multiplying the segment length times two if it is an undivided roadway and by four if it is divided.

This quantity will then be multiplied by the Municipal Screening Board approved Unit Price to determine the Curb and Gutter Construction Needs.

The quantity used for **Sidewalk Construction** will be determined by multiplying the segment length times 26,400 (a five-foot wide sidewalk on one side of a mile of roadway) in the lower two ADT groups (less than 500 ADT) and by 52,800 (two five-foot wide sidewalks on a mile of roadway) in the upper ADT groups.

This quantity will then be multiplied by the Municipal Screening Board approved Unit Price to determine the Sidewalk Construction Needs.

The Unit Cost per mile of **Storm Sewer** for the highest MSAS Urban ADT Group for Needs Purposes will be based on the average costs of all Storm Sewer Construction on the MSAS system in the previous year. To determine the Unit Cost for the highest ADT Group, average costs for Complete Storm Sewer projects and Partial Storm Sewer projects will be provided to State Aid by the MnDOT Hydraulics Office and then added together and divided by two to calculate a statewide average Unit Cost for all Storm Sewer Construction.

The Unit Cost per mile for Storm Sewer Construction will be calculated for the highest MSAS Urban ADT Group and be prorated downward for the other ADT Groups. This proration has been determined based upon an engineering study requested by the Municipal Screening Board in 2011 and will be the basis for the Needs calculations.

The Unit Cost for **Street Lighting** will be determined by multiplying the Unit Price per mile by the segment length. For ADT groups in the range of 1 to 4999, this Unit Cost will remain at \$142,500 per mile. For ADT groups that are 5000 ADT or more, this Unit Cost will remain at \$195,000 per mile. Non-existing routes will remain at \$0 per mile. The Municipal Screening Board may request a study on this item on any year if it is deemed necessary.

The Unit Cost for **Traffic Signals** will be determined by the recommendation by the SALT Program Support Engineer and approved by the MSB.

The Unit Cost for traffic signals will be based on a cost per signal leg, and for Needs purposes a signal leg will be defined as  $\frac{1}{4}$  of the signal cost.

Only signal legs on designated MSAS routes will be included in the Needs study.

Stand-alone pedestrian crossing signals will not be included in the Needs study.

The area in square feet used for **Structure Needs** (Bridges and Box Culverts) will be determined by multiplying the <u>centerline length</u> of the bridge, or the <u>culvert width</u> of the box culvert, times the Needs Width from the appropriate MSAS Urban ADT Group. This quantity will then be multiplied by the Municipal Screening Board Unit Price to determine the Structure Needs. The Unit Price for Structures will be determined by using one-half of the approved unit cost provided by the MnDOT State Aid Bridge Office.

The Unit Cost for **Engineering** will be determined by adding together all other Unit Costs and multiplying them by the MSB approved percentage. The result is added to the other Unit Costs.

for the January 2024 distribution									
Needs Item		Municipal Screening Board Approved Prices for the 2023 Distribution	Needs Study Subcommittee Recommended Prices for 2024 Distribution	Municipal Screening Board Approved Prices for the 2024 Distribution

25,000 and over		282,700	298,500	298,500					

Mileage - Feb. 1959 (Revised Oct. 1994. 1998)

The maximum mileage for Municipal State Aid Street designation will be 20 percent of the municipality's basic mileage - which is comprised of the total improved mileage of local streets, county roads and county road turnbacks.

Nov. 1965 – (Revised 1969, October 1993, October 1994, June 1996, October 1998, May 2014)

That the maximum mileage for State Aid designation may be exceeded to designate trunk highway turnbacks released to the Municipality after July 1, 1965.

The maximum mileage for State Aid designation may also be exceeded to designate both County Road and County State Aid Highways released to the Municipality after May 11<sup>th</sup>, 1994.

Nov. 1965 (Revised 1972, Oct. 1993, 1995, 1998)

The maximum mileage for Municipal State Aid Street designation will be based on the Annual Certification of Mileage current as of December 31st of the preceding year. Submittal of a supplementary certification during the year will not be permitted. Frontage roads not designated Trunk Highway, Trunk Highway Turnback or County State Aid Highways will be considered in the computation of the basic street mileage. The total mileage of local streets, county roads and county road turnbacks on corporate limits will be included in the municipality's basic street mileage. Any State Aid Street that is on the boundary of two adjoining urban municipalities will be considered as one-half mileage for each municipality.

All mileage on the MSAS system will accrue Needs in accordance with current rules and resolutions.

Oct. 1961 (Revised May 1980, Oct. 1982, Oct. 1983, June 1993, June 2003)

All requests for revisions to the Municipal State Aid System must be received by the District State Aid Engineer by March first to be included in that years Needs Study. If a system revision has been requested, a City Council resolution approving the system revisions and the Needs Study reporting data must be received by May first, to be included in the current year's Needs Study. If no system revisions are requested, the District State Aid Engineer must receive the Normal Needs Updates by March 31st to be included in that years' Needs Study.

One Way Street Mileage - June 1983 (Revised Oct. 1984, Oct. 1993, June 1994, Oct. 1997)

Any one-way streets added to the Municipal State Aid Street system must be reviewed by the Needs Study Sub-Committee, and approved by the Screening Board before any one-way street can be treated as one-half mileage in the Needs Study.

All Municipal Screening Board approved one-way streets be treated as one-half of the mileage and allow one-half complete Needs. When Trunk Highway or County Highway Turnback is used as part of a one-way pair, mileage for certification shall only be included as Trunk Highway or County Turnback mileage and not as approved one-way mileage.

### **Needs Adjustments**

In the event that an MSAS route earning "After the Fact" Needs is removed from the MSAS system, the "After the Fact" Needs will then be removed from the Needs Study, except if transferred to another state system. No adjustment will be required on Needs earned prior to the revocation.

<u>Excess Unencumbered Construction Fund Balance Adjustment</u> – Oct. 2002, (Revised Jan. 2010, May 2014, May 2019, October 2021, *June 2022*)

State Aid Payment Requests received before December 1st by the District State Aid Engineer for payment will be considered as being encumbered and the construction balances will be so adjusted.

The December 31 construction fund balance will be compared to the annual construction allotment from January of the same year. If the December 31 construction fund balance exceeds 3 times the January construction allotment, and the construction fund balance is over 3 times the average construction allotment for all cities excluding cities of the first class (hereinafter referred to as the adjusted average construction allotment), then the negative adjustment to the Needs will be 1 times the December 31 construction fund balance. In each consecutive year the December 31 construction fund balance exceeds 3 times the January construction allotment (and the balance is over 3 times the adjusted average construction allotment) the negative adjustment to the Needs will be increased to 2, 3, 4, etc. times the December 31 construction fund balance until such time the Construction Needs are adjusted to zero.

If the December 31 construction fund balance drops below 3 times the January construction allotment and subsequently increases to over 3 times, the multipliers will start over with one.

The adjusted average construction allotment used for this purpose shall not decrease in value from one year to the next.

If a city wishes to justify their balance in excess of said limits, and request an exemption to the excess balance adjustment, their request must be reviewed and approved by the Municipal Screening Board at their Annual Fall Meeting.

### Low Balance Incentive - Oct. 2003 (Revised May, 2014)

The amount of the Excess Unencumbered Construction Fund Balance Adjustment will be redistributed as a positive adjustment to the Construction Needs of all municipalities whose December 31<sup>st</sup> construction fund balance is less than 1 times their January construction allotment of the same year. This redistribution will be based on a city's prorated share of its Unadjusted Construction Needs to the total Unadjusted Construction Needs of all participating cities times the total Excess Balance Adjustment.

### After the Fact Right of Way Adjustment - Oct. 1965 (Revised June 1986, 2000, May 2014)

Right of Way Needs will not be included in the Needs calculations until the right of way is acquired and the actual cost established. At that time a Construction Needs adjustment will be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 15-year period. Only right of way acquisition costs that are eligible for State-Aid funding will be included in the right-of-way Construction Needs adjustment. This Directive is to exclude all Federal or State grants.

When "After the Fact" Needs are requested for right-of-way projects that have been funded with local funds, but qualify for State Aid reimbursement, documentation (copies of warrants and description of acquisition) must be submitted to the District State Aid Engineer. The City Engineer will input the data into the Needs Update program and the data will be approved by the DSAE.

### After the Fact Railroad Bridge over MSAS Route Adjustment – May 2014

### RR Bridge over MSAS Route Rehabilitation

Any structure that has been rehabilitated (Minnesota Administrative Rules, CHAPTER 8820, 8820.0200 DEFINITIONS, Subp. 8. Bridge rehabilitation) will not be included in the Needs calculations until the rehabilitation project has been completed and the actual cost established. At that time a Construction Needs adjustment will be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 15-year period. Only State Aid eligible items are allowed to be included in this adjustment and all structure rehabilitation Needs adjustments must be input by the city and approved by the DSAE.

### RR Bridge over MSAS Route Construction/Reconstruction

Any structure that has been constructed/reconstructed (Minnesota Administrative Rules, CHAPTER 8820, 8820.0200 DEFINITIONS, Subp. 31. Reconstruction) will not be included in the Needs calculations until the project has been completed and the actual cost established. At that time a Construction Needs adjustment will be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 35-year period. Only State Aid eligible items are allowed to be included in this adjustment and all structure construction/reconstruction Needs adjustments must be input by the city and approved by the District State Aid Engineer.

### **After the Fact Railroad Crossing Adjustment**

Any Railroad Crossing improvements will not be included in the Needs Calculations until the project has been completed and the actual cost established. At that time a Construction Needs adjustment will be made by annually adding the local cost (which is the total cost less county or trunk highway participation) to the annual Construction Needs for a 15 year period. Only State Aid eligible items are allowed to be included in this adjustment, and all Railroad Crossing Needs adjustments must be input by the city and approved by the District State Aid Engineer.

### **Excess Maintenance Account – June 2006**

Any city which requests an annual Maintenance Allocation of more than 35% of their Total Allocation, is granted a variance by the Variance Committee, and subsequently receives the increased Maintenance Allocation will receive a negative Needs adjustment equal to the amount of money over and above the 35% amount transferred from the city's Construction Account to its Maintenance Account. The Needs adjustment will be calculated for an accumulative period of twenty years, and applied as a single one-year (one time) deduction each year the city receives the maintenance allocation.

### After the Fact Retaining Wall Adjustment Oct. 2006 (Revised May 2014)

Retaining wall Needs will not be included in the Needs study until such time that the retaining wall has been constructed and the actual cost established. At that time a Needs adjustment will be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 15 year period. Documentation of the construction of the retaining wall, including eligible costs, must be submitted to your District State Aid Engineer by July 1 to be included in that years Needs study. After the Fact needs on retaining walls will begin effective for all projects awarded after January 1, 2006. All Retaining Wall adjustments must be input by the city and approved by the District State Aid Engineer.

### **TRAFFIC** - June 1971 (Revised May 2014)

Beginning in 1965 and for all future Municipal State Aid Street Needs Studies, the Needs Study procedure will utilize traffic data developed according the Traffic Forecasting and Analysis web site at http://www.dot.state.mn.us/traffic/data/coll-methods.html

**Traffic Counting - Sept. 1973** (Revised June 1987, 1997, 1999, Oct. 2014)

Traffic data for State Aid Needs Studies will be developed as follows:

- 1) The municipalities in the metropolitan area cooperate with the State by agreeing to participate in counting traffic every two or four years at the discretion of the city.
- 2) The cities in the outstate area may have their traffic counted and maps prepared by State forces every four years, or may elect to continue the present procedure of taking their own counts and have state forces prepare the maps.
- 3) Any city may count traffic with their own forces every two years at their discretion and expense, unless the municipality has made arrangements with the Mn/DOT district to do the count.
- 4) On new MSAS routes, the ADT will be determined by the City with the concurrence of the District State Aid Engineer until such time the roadway is counted in the standard MnDOT count rotation.
